

WILL ISSUE TWO BILLIONS IN BONDS

M'Adoo Announces Amount First Offering Under War Finance Law

WILL BE DATED JULY 1

Popular Subscriptions At Par Will Be Received Until June 15, Next

M'ADOO'S STATEMENT

WASHINGTON, May 2.—Secretary McAdoo, announced tonight that the first offering of bonds authorized under the war finance law would be a two billion dollar "Liberty Loan" issue, open to popular subscription at par and that subscriptions would be received until June 15, next. "The bonds will be dated July 1, and will be ready for delivery on that date."

Altho many organizations in addition to the banks of the country will be used in floating the bonds, the twelve federal reserve banks will be designated as central agencies in their respective districts.

Interest on the bonds will be payable semi-annually on January 1, and July 1.

McAdoo's Announcement

In making the announcement Mr. McAdoo said:

"I have determined to make an initial offering of \$2,000,000,000 of the 3-1/2 per cent 'Liberty Loan' of 1917. The bonds will be dated July 1, 1917, with interest payable semi-annually, January 1st and July 1st. The maturities will be announced later. In accordance with the provisions of the act, the bonds will be convertible into bonds bearing a higher rate of interest than 3-1/2 per cent if any subsequent series of bonds shall be issued at a higher rate of interest before the termination of the war between the United States and the German government."

"The 'Liberty Loan' will be offered at par as a popular subscription and ample opportunity will be given to every man and woman in the United States who wishes to subscribe, to secure an absolutely safe investment, free from federal, state or local taxation (except, of course, inheritance taxes). The bonds will be in such denominations as will put them within the reach of every investor."

Ready for Delivery July 1.

"Subscriptions will be received until June 15, 1917. The bonds will be ready for delivery July 1. Allotments will be made as rapidly after June 15th as possible. Details as to manner of payments for the bonds will be announced later. Announcements will be arranged so not as to cause inconvenience or disturbance. Deposits of funds will be made in large number of banks throughout the country as practicable and they will be withdrawn as gradually as the requirements of the government will permit."

"Since the great bulk of the credits to be established for the foreign governments is required for purchases made in this country, the operation will be largely a transfer, or exchange of credits and should have a stimulating and helpful effect upon the general business and financial situation."

"The initial issue has been determined by the essential requirements of our government for the conduct of the war and necessities of the foreign government to which credit is being extended. After having received advice and suggestions from bankers, investment houses, business men and investors in all parts of the country, I feel confident of the ability of the market to absorb rapidly and readily the \$2,000,000,000 offering."

Reserve Banks Central Agency

"This is the largest single piece of financing ever undertaken by the United States government and in order that ample opportunity may be given every one to subscribe, I have decided to use the twelve federal reserve banks, which are fiscal agencies of the government as the central agency in each of the twelve federal reserve districts for receiving the subscriptions, for taking care of the details of deliveries of the bonds after allotment and for handling the payments of subscriptions."

"All banks, national, state and trust companies, private bankers and bond houses will be authorized to receive subscriptions. It is desired that the subscriptions should be forwarded thru the federal reserve banks of the respective districts which, in turn, will be prepared to supply full information and facilitate greatly the work in hand."

"I have asked the federal reserve banks to get in touch immediately with the banks, private bankers, bond houses and business organizations in the several districts requesting them to organize a general committee for each district and local committees in each city and town to co-operate in this great patriotic work."

TO VOTE ON PROPOSALS TO ELIMINATE CENSORSHIP

Both Houses to Act Probably Some Time This Week

Representative Graham Terms Section of Espionage Bill "Un-American"—Kahn to Propose Permanent Board of Censors—House May Reach Vote Today.

Washington, May 2.—Both houses of congress will vote on proposals to strike out the censorship sections of the administration's espionage bills when they come up for final passage, probably something this week. During debate today Senator Johnson of California and Representative Graham of Pennsylvania announced they would move to strike out the sections of which there has been much opposition, by newspapers and persons who say it would endanger the right of a free press and free speech.

Representative Graham's announcement followed a vigorous attack of an hour on the house bill in which he maintained that the newspapers had proved by submitting voluntarily to a censorship that they could be trusted in time of National Crisis.

He termed the section "un-American" and declared that any real giving of value to the enemy could be dealt with under other provisions.

Representative McCormick of Illinois declared that large newspapers would violate the law when they believed they were right and employ skilled lawyers, while small papers would be forced to submit to the regulations. He announced his intention of offering an amendment to confine the president's power to suppression only news of ship and troop movements, plans of the army and navy and other news which might be of value to the enemy.

Representative Guard of Ohio urged passage of the measure as it stands. He insisted that the newspaper section was proposed as any criminal would be not to hamper the reliable press, but to safeguard against dishonest newspapers. Heated debate is expected in the house tomorrow when various amendments will be offered.

Representative Kahn will propose a permanent board of censors and Representative McCormick of Illinois, who opposed the bill in a speech today and others have changes they want to urge. The bill may reach a final vote in the house tomorrow.

SETTLE STRIKE OF CHICAGO BAKERS

Make Announcement After Conference of Men and Employers in Office of District Attorney Clyne.

Chicago, May 2.—The strike of the bakers which has been in progress since Saturday, was settled tonight after a conference of representatives of men and employers in the office of the United States district attorney, Charles F. Clyne.

Early in the evening District Attorney Clyne summoned representatives of the bakers companies affected by the strike and heads of the bakers' unions. Mr. Clyne told them that it was advisable to come to an agreement between themselves, according to reports, since there was a possibility that the government might take cognizance of the situation.

After more than three hours of conference Mr. Clyne announced that an agreement to end the strike had been reached, the details of which he said would be given later. Meanwhile it was said that Hinton G. Clabaugh, agent of the department of justice was investigating a report that a leading member of the bakers' union, is a German reservist and that some time ago he tried to return to Germany but failed.

Later it was announced that the strikers gained an increase of \$2 a week in wages which they demanded. This amounts in the aggregate to \$4,000 a week. Every striker is to go back to his old job without prejudice. The employers agreed to grant the right of employing non-union foremen in their shops, but there are strict rules against undue "speeding up" of foremen. Business agents of the union are permitted to visit shops at any time work is going on.

STATES FURTHER RISE IN COAL PRICE DUE

CHICAGO, May 2.—Further increase in the price of coal and greater shortage of cars for hauling are due this year, if present conditions in the industry prevail and the demand continues to increase. This statement was made before a subcommittee of the federal trade commission which began a hearing here today, by George H. Cushing, editor of a coal trade publication. He said consumers should buy during the summer months and store coal to avoid the shortage which he predicted will come in the fall.

E. W. Bushman representing mining interests in Southern Illinois, also complained of the shortage of cars.

DRIVE TURKS FROM POSITION.

London, May 2.—The thirteenth Turkish army corps has been driven by the British from its position in Mesopotamia on both banks of the Shatt-el-Adhem. General Maude reported today. The British cavalry is pursuing the Turks into the Jodel Hamrin hills, and making many captures.

CHINESE MINISTER LEAVES BERLIN.

Peking, May 2.—The foreign office has received information that the Chinese minister to Germany has left Berlin for Denmark.

U-BOAT WARFARE MUST BE CHECKED

Enormous Inroads On Shipping Realization to U. S. Officials

STATE GOVERNORS MEET

Will Take Home Message Urging Fullest Co-ordination in War Preparation

SITUATION SERIOUS

WASHINGTON, May 2.—The enormous inroads on the world's shipping made by German submarines within the last few weeks has brought to American government officials a full realization of the disaster that faces the United States and the allies if the undersea warfare is not checked.

Urges Fullest Co-Ordination

Governors and state representatives here today for a national defense conference will take home to their people a message from the government emphasizing the menace to America and urging that there must be the fullest co-ordination by the states in war preparation of Germany is to be defeated.

Secretary Lane told the conference that the great destruction of ships was threatening the existence of Great Britain and France and menacing the United States. No one he said, knew the exact number of ships lost recently but estimates put last week's submarine toll at 400,000 tons. Later he explained that this estimate probably was too high.

Secretary Lansing during the day declared the seriousness of the submarine situation could not be exaggerated, and it was time the country awoke to the true facts.

Reports to the state department give a total of eighty vessels lost in one week, figures much higher than any contained in recent British announcements.

Agree Situation is Critical

The British mission announced that the rate of destruction in recent weeks had continued unchanged and that it showed no alarming increases. All its members agree the situation is critical however, and that the combined shipbuilding facilities of the world can meet the peril only if their output is increased tremendously.

Announcing the government's program for exercising a more direct control over the country's shipping and ship building facilities, Chairman Denman of the shipping board said estimates had reached the board of 300,000 tons of shipping sunk in one week.

The present world's ship tonnage is estimated at less than 50,000,000 tons. In 1916 the entire loss in tonnage due to war causes, was put at a little more than 2,000,000 tons, or some 162,000 tons a month. At present the Germans are sinking considerably more than that each week. A bureau of navigation report prepared recently estimated the world's ship construction in 1916 at slightly less than 2,000,000 tons. If the Germans keep up their present rate of destruction officials admit without hesitation that their campaign threatens to sweep clean the seas.

"The seriousness of the situation is apparent," said Chairman Denman today, "when we consider the present productivity of world ship yards and their highest output likely within the next four months, the entire production will not exceed one fifth of the monthly loss at the rate given by Secretary Lane."

Take Governors Into Confidence.

The federal government today took into its confidence governors and state representatives here for a national defense conference and outlined the problem the nation faces in making war on Germany. Cabinet heads explained the situation and asked aid in putting into effect the government's war measures.

At a second conference tomorrow the council of National Defense will present a definite program to the states for co-ordinating their work in carrying out military and economic plans.

President Wilson received the delegates today at the white house and urged that the states draw all energies and efforts together into common action.

The submarine situation was brought sharply to the front when the governors gathered at the state, war, and navy building and heard Secretaries Lane and Daniels picture the dangers and beset the country in the German undersea war.

Explains New Army Bill.

Secretary Baker and other war department officials explained the new army bill and said the success of the war army depended on the co-operation of the states.

At a later meeting, Secretary of Labor Wilson and agricultural department officials discussed food problems and labor need and their relation to success.

Tomorrow Secretary Redfield will put before them commercial conditions.

CAPTAIN OF U. S. TANK STEAMER VACUUM LANDS

Gives Definite News of Loss of Lieutenant Thomas, U. S. N.

Message to American Consul Reduces Loss of Life to 23, About Thirteen of This Number Being Americans—Increases Number of Gunners Saved to Eight

Liverpool, May 2.—The safety of Captain Harris, five gunners and the third mate and boatswain of the American tank steamship Vacuum all of whom had been given up for lost, was made known by the captain himself in a telegram received here today by the American consul, H. L. Washington. This telegram reduces the loss of life to 23, about 13 of this number being Americans. It increases to eight the number of gunners saved. It also places the loss from the crew at 18 and the saved at 3.

The captain's message telegram gave the first definite news of the loss of Lieutenant Thomas, U. S. N., and the death from exposure of F. H. Loree, but did not tell how the survivors reached land. Five gunners arrived safely with Captain Harris. They were James E. Williams, John Williams, George W. Parker, O. H. Lucke and H. J. Musshorn. The other in the captain's boat were landed were E. Husted and O. Nelson, the Bosun.

Captain Harris will arrange for the burial of Loree, and then will proceed to the survivors who already have reached Liverpool. The Americans who were rescued appeared before the United States consul today and made affidavits which will be forwarded to the state department at Washington.

Leslie Halton the wireless operator of Niagara, Wis., who from the wireless hut saw the wake of a torpedo and indicated also that of a submarine said the explosion was so terrific that it blew a hole right up through the ship abt the engine room and put the wireless dynamo out of commission.

"I, therefore," the operator added, "was unable to send wireless calls. When we were in the small boat the submarine appeared on the surface and made a square hit with the first shell on the wireless hut shattering it."

Ends All Hope for Shattering.

Washington, May 2.—Information received by the navy department today, transmitted officially by Consul Washington at Liverpool ended all hope for the safety of Lieut. Clarence C. Thomas, commander of the naval guard aboard the American steamer Vacuum when the ship was destroyed by a German submarine.

The message said it had been established that the lieutenant lost his life and indicated also that of the twelve gunners, comprising the naval complement, four were dead.

SPECIFICATIONS WILL BE READY VERY SOON

Shipping Board Makes Announcement to Alleviate Uncertainty Among Builders of Wooden Ships.

Washington, May 2.—To allay uncertainty among shipbuilders who expect to take contracts for vessels of the great wooden ship fleet, the shipping board announced late today that specifications for a standard ship would be ready in the very near future.

The standard ship, the announcement said will be about 850 feet over all with a 24 foot depth of hold and with two full decks and will be capable of developing about 1,500 horse-power.

"The board will submit its plans and specifications as soon as possible," reads the announcement. "Bidders may propose to furnish completed ships or hulls only. Any firm desiring to submit proposals to build completed ships from their own plans may do so, but such plans will have to be approved by the board's engineers and all are urged to wait until the standard plans are ready."

Scores of shipbuilders have assured the board that they will take up contracts to the limit of their capacity.

Officials will make every effort to submit the specifications as soon as possible so there will be no unnecessary delay in getting the ships into the water to aid in breaking the German submarine blockade.

GENERAL BUSINESS NOT MATERIALLY AFFECTED

WASHINGTON, May 2.—General business conditions thruout the country the federal reserve board announced tonight in its regular monthly review have not been materially affected by the entrance of the United States into the war, altho in every district there is going on a process of re-adjustment which is reflected in many lines. No section of the country the board finds has there been industrial, financial or commercial distress because of the changes incidental to placing the country on a war footing.

GIVES LOSSES IN AIRPLANES.

London, May 2.—A compilation from British, French and German official communications shows that 717 airplanes were shot down on the western front during April. The Germans lost 359; the French and Belgians 201 and the British 147. This is a great increase over the casualties for any similar period. The highest previous total was 322 in last September.

SHIPS REACH HOLLAND.

The Hague, May 2.—via London.—Fourteen Dutch ships which had been guaranteed safe passage by Germany have arrived in Holland from England.

LETTERS REVEAL SORDID STORY

State Introduces Missives in Trial of Vawter for Killing Heth

WRITTEN BY DEFENDANT

Tell How Vawter Discovered and Condoned Improper Relations Between Couple

CONFIRMS DETAILS

CHRISTIANSBURG, Va., May 2.—A story of how Charles E. Vawter, Virginia polytechnic professor, on trial here for killing Stockton Heth, Jr., has struggled against the craving for drink, had discovered and condoned improper relations between his wife and Heth and had asked the latter to pay a whiskey debt for him was revealed in letters introduced today by the state.

Found by Heth's Sister

They were written by Vawter to Heth last year, the prosecution asserted, and were found by the dead man's sister after he had been shot while a guest in the Vawter home.

The letters were produced during the cross-examination of Vawter this afternoon. In one communication Vawter wrote that he had discovered the improper relations between Mrs. Vawter and Heth; that she had stood by the defendant when drink had made a demon of him, and that now his love for her would not falter.

"Now you can love her with less fear," said the letter, "you are not worrying me for it is for her happiness, not yours, altho I like you very much. You are simply a lucky being."

Asked Heth to Pay Bill

In the same letter Vawter asked Heth to pay a liquor bill of \$93 for him, and also told the young man that his other debts amounted to \$2,600. He admonished Heth not to mistreat Mrs. Vawter and not to let her know that Vawter knew that she loved him.

In one of the letters introduced, Vawter warned Heth that he had discovered the latter's relations with Mrs. Vawter and warned him to keep away from the Vawter home.

It was about a week later that Vawter wrote urging Heth to forget what had been said and continue his visits.

The letter said: "Please read this and when you have, destroy it. I know what happened Sunday afternoon. I was thought to be asleep, but in reality was never more wide awake. I came to the door and found out for myself what I have suspected for quite awhile! Now I am going to give you the surprise of your life and I only hope that you will be able to appreciate my position. By a supreme effort I kept myself under control that afternoon and can keep it now forever. To make a long matter short, I love you beyond what I can express and the conventions of this world cannot make me do anything to mar her happiness. I remember all the years she has had to stick by me when drink made a demon of me, how her love has never faltered. Now mine shall not."

Asks One Favor

"She loves you dearly and you must not hurt her. Never let her know that I have any idea that she loves you or that you love her. Now I have one favor to ask you to do for me. It will not do for me to ever touch one drop of drink again. It would mar all our happiness if I did drink. So this is the favor: I owe the Roanoke Wine company \$63, (my other debts are \$2,600). I want you to pay this bill for me when you go to Roanoke on the 25th. From this I will know that you propose to make me one promise and that is all I shall ever ask you and that is that you will not mistreat me. I mean by that neglect my precious sweetheart and that you will be very careful not to cause her to be talked about or get into any trouble whatsoever."

"Now we understand each other. I do not blame you in the least. You have taken no advantage of anyone. You are square to the bone and I don't blame her for loving you one bit. She will love me again some day for I am going to cut you out by fair means as you, unintentionally have me."

Admits Writing Letters

During his testimony Vawter stated that on one occasion he saw his wife run out of Heth's bedroom in a night dress, and that when he denounced Heth, the latter choked him for his suspicion of Mrs. Vawter. On another occasion, Vawter said Heth choked him into insensibility when he accused him of kissing Mrs. Vawter. He stated that the four times he had broken his pledge about drinking was when Heth offered him whiskey. Vawter admitted writing the letters given in evidence.

Vawter confirmed practically every detail of the shooting as given before the ball commissioner and produced in court yesterday. When he awakened at 3 a. m. and found

BRING OUT PLANS OF RINTELEN AT TRIAL

Sought to Embroil U. S. in War With Mexico and Japan

Gompers Testified He Advised Buchanan His Plans to Prevent Manufacture and Transportation of Munitions in This Country Were Foolhardy.

New York, May 2.—Plans of Captain Franz Rintelen of the German army to embroil this country in war with Mexico and Japan and the ineffectual efforts of former Representative Frank Buchanan to enlist the support of Samuel Gompers, president of the Federation of Labor, in a project to prevent the manufacture and transportation of munitions in this country were brought out in the conspiracy trial of these two men and six others here today. The defendants are charged with fomenting strikes designed to disrupt the current allies' munitions trade in this country thru the activities of Labor National Peace Council, of which Mr. Buchanan was first president.

Gompers Warned Buchanan

Mr. Gompers testified he had advised Mr. Buchanan that his plans were foolhardy; that they were in conflict with the interests of labor as represented by the American Federation of Labor and that he warned Buchanan against associations with Herman Schulteis and Henry H. Martin. These men are defendants and were members of Labor's National Peace Council.

The testimony as to Rintelen's activities was given by John C. Hammond, an advertising agent, who said Rintelen engaged him to carry on a pro-German publicity campaign. Rintelen proposed to spend \$25,000 for this purpose but spent only \$7,500, becoming discouraged as to the success of his plans to arouse sentiment in favor of the German cause in this country after the sinking of the Lusitania.

Tried to Bring On Strikes

Mr. Hammond said he gave up his work for Rintelen when he learned that he was doing all in his power to bring on war between the United States and Mexico and that Rintelen believed it was only a matter of time before German diplomacy would embroil this country in war with Japan. Rintelen's purpose he testified, he was told, was to bring on strikes so as to break up the munition traffic.

Rintelen described trouble in Mexico, which he expected Huerta, former dictator of Mexico, to stir up as his trump card, Hammond said.

The witness declared he called these activities of Rintelen to the attention of the government and then for some time continued to meet Rintelen and to listen to his plans under the direction of officers of the department of justice.

FIND MUSICIAN AND WIFE SHOT TO DEATH

Revolver Clutched in Man's Right Hand Indicates He Shot His Wife and Then Himself

Chicago, May 2.—Juan Castillo, a musician, and his wife Sylvia, a singer and cabaret entertainer, were found shot to death in their North Side apartments today.

The body of Mrs. Castillo was lying across an open trunk and that of her husband on a bedroom floor. A revolver clutched in his right hand indicated he had shot his wife and then himself. Indications that Mrs. Castillo was packing the trunk when shot led the police to believe she was preparing to leave and that probably a quarrel prompted the shooting.

The Castillos came to Chicago last fall from New York, with the Misses Play, which disbanded here after a long run. Since then Mrs. Castillo has been singing in cabarets and Castillo has been appearing as a comedian. The young couple were married about a year ago in Sacramento, Cal.

WETS LOSE THEIR LAST HOPE IN SPRINGFIELD

SPRINGFIELD, Ill., May 2.

Wets lost their last hope of keeping Springfield in the wet column today when County Judge J. B. Weaver dismissed a citizen's petition asking recount of the vote of April 5, which ousted saloons here by a majority of slightly less than 500.

The 215 dramsops will close their doors at mid-night tomorrow night, not to reopen.

Liquor agencies, it is reported are preparing to establish branch houses in nearby wet territory from which to furnish Springfield with wet goods, inasmuch as Attorney General Brundage has ruled that it is unlawful for such agencies to distribute their products from within dry territory.

MAJOR FOULIS TO INSPECT SITES

WASHINGTON, May 2.

Major B. D. Foulois, of the army aviation corps has been ordered to inspect proposed sites for new aviation stations at Champaign, Ill.; Detroit, Chicago, St. Louis, Memphis, Indianapolis and Dayton, O., in line with the plan to develop as soon as possible a force of 1,000 trained aviators.

The aviation section has been flooded with application for appointments to the corps. From the several thousand applicants 600 or more of the best fitted will be put under training at once. Each will spend the first month at one of the universities designated yesterday to give special short courses in the theory of all flight and mechanics. Then two months or more will be devoted to practical work at an aviation station.

DISCUSS DESPATCH OF ARMY TO FRANCE

Marshal Joffre Spends an Hour Talking With President Wilson

TALKS WITH VIVIANI

French Mission Head Lunches At White House—Withhold Information

LEAVE CAPITAL TODAY

WASHINGTON, May 2.—On the eve of their departure on a tour of middle western and eastern states, members of France's war mission today held further important conferences with representatives of the United States government. Marshal Joffre went to the white house and spent an hour talking with President Wilson discussing among other questions the despatch of an expeditionary force to France. The marshal was accompanied by Colonel Spencer Cosby of the United States army who acted as interpreter.

Wilson Confers with Viviani

President Wilson also conferred with Rene Viviani head of the mission during an informal luncheon at the white house. Emile Hovelague, general counsellor of the mission, acted as interpreter. Members of the French naval and military sections met with representatives of Great Britain during the day and there were talks with various American officials. Information regarding all the conferences were withheld. The visitors will leave Washington at 3:30 o'clock tomorrow afternoon for Chicago aboard a special train. They will arrive about noon Friday.

They will pass thru certain sections of Indiana and Illinois Friday morning, a state department announcement tonight said.

Department's Statement

"The authorities along the route of their procedure will be communicated with in time to notify the people of the various communities. It is deemed inadvisable at present to announce these points."

An official list of the members of the party follows:

Rene Viviani, vice premier of the council of ministers and head of the mission; Marshal Joffre; Vice-admiral Chocheprat; Marquis de Chambrun, great grand son of General Lafayette; Emile Hovelague, Inspector general of public instruction and general counsellor of the mission; Viscount Delecan, counsellor of the French embassy; Lieut. Col. Jean Fabry, Marshal Joffre's chief of staff; Lieut. Commander Simon, Lieut. De Tessanen, military aide to Marshal Joffre; Lieut. Col. Cosby, U. S. A., Breckenridge Long, third assistant secretary of state, Warren D. Robbins, representative of the state department attached to the mission; representatives of three American and two French press associations and one French newspaper, one private secretary, one French stenographer, three orderlies and a valet.

To Visit Lincoln's Tomb

After being entertained in Chicago the party will go to Kansas City, St. Louis, Springfield, Ill., to visit the tomb of Abraham Lincoln, Philadelphia, New York and Boston. From Boston the visitors will return to Washington and resume their conferences. The tour probably will last a week or ten days.

Members of the mission will take with them much data upon which they expect to work while traveling. Tonight M. Viviani and M. Simon were guests of honor at a dinner given by Assistant Secretary of Agriculture Vrooman while Henry White former ambassador to France entertained at dinner in honor of Marshal Joffre. Later all the members of the mission attended a private reception.

THE SHORTAGE OF FARM TOOLS.

A shortage attended with serious possibilities which has not been previously mentioned now appears along with other troubles. That is the shortage of farm implements, occasioned by the fact that the manufacturers are not able to secure anywhere near the amount of sheet steel needed for their factories. Here is another task for the government, for certainly the encouragement and adjunction given to farmers to plant more and grow bigger crops falls ineffective if the tillers of the soil are to find themselves short on the needed tools. The government may find it necessary to divert some steel from the munition factories for the still more important field of supplying the implement factories.

HIG PROFITS ON NARROW MARGINS.

The protests made by the public about high living costs are well founded, but the big packers must be properly credited with not having made exorbitant prices for their beef products. It is a fact that while the packing industries show enormous profits when each year's totals are studied, it is also true that these profits are based on a very narrow net percent of profit and the big returns are made not from the large margin but from the fact that so many millions of business are handled each year.

THE PROBLEM OF DEFECTIVE CHILDREN.

The country wide notice given to Baby Week is laying particular emphasis upon the number of defective children in this country. The subject is of vast importance not only from the humanitarian standpoint but economically as well. The subject has also its relation to the question of preparedness, for the children of today are the grown-ups of tomorrow.

Dr. Wood of Columbia university, after a study of several thousand children of school age, has given these alarming and surprising figures:

- Out of 20,000,000 pupils in this country 1,000,000 have defective hearing.
- Five million have defective vision.
- Six million suffer from malnutrition.
- One million have flat feet, spinal curvature or other deformities sufficient to interfere with their health.
- Six million have adenoids, enlarged tonsils or cervical glands needing attention.
- Ten million have defective teeth.
- Fifteen million have physical defects sufficiently grave to require attention.

VALE'S BIG CONTRIBUTION.

As an example of what the majority of the greater American colleges and universities are doing to help in the tremendous work of war organization, the splendid work already accomplished by Yale alone may be considered.

The university has already organized a unit of the Reserve Officers' Training Corps; built a complete armory and stables near Yale Field; organized a Yale unit of the Volunteer Coast Patrol Aviation Corps; organized a naval training unit of the Motor Boat Patrol; organized a research committee to co-operate with the National Research Council; organized a unit of the Intercollegiate Intelligence Bureau; placed any university equipment at the disposal of the Government; given over Yale Field and Armory to the Government as a training camp with freedom to use the dormitories as barracks, the dining hall as mess room, etc., should the Government see fit thus to "commandeer" the university's properties and facilities and turn them wholly to national use.

Meanwhile more units of the Reserve Officers' Training Corps are being organized, and there will be no limit to the organization of these units, which will go on as far as the university material will permit or the Government will deem to use.

STRIKES WILL COME AND GO

Such pressure was brought to bear that the bakers' strike, which inconvenienced such a large portion of the population of Chicago, was ended Wednesday. The strike was brought, notwithstanding the assurance given some time ago by Samuel Gompers that there would be no trouble with organized labor during the days of the war. However, this strike should not be charged up against Mr. Gompers, for representatives of the national council of the federation of labor did their best to bring about a settlement and also to aid in an investigation as to whether or not the strike was brought about thru agitation stirred up by representatives of foreign governments.

TEST WELLS A WISE PROPOSAL.

The report of the Illinois Water survey made to the joint committee of city commissioners and citizens is an exhaustive review of the local situation. The report and recommendations were made after engineers representing the survey had made careful inspection of the territory contiguous to Jacksonville and had studied the needs of the city from a water supply standpoint. The first recommendation which the survey makes, and a recommendation which stamps the report as based on practical knowledge, is that Jacksonville's task is to secure an adequate supply of water as economically and as quickly as possible. To carry out this idea the survey believes that a thorough investigation of the territory adjacent to the north side wells should be made in order to secure definite information as to the quality and quantity of the water available there.

This suggestion by the survey is reasonable and practical. No matter what one's opinion of the north side well location in the past may have been the fact remains that the larger portion of the city's supply has been coming from that source for the past two or three years and the water is of satisfactory quality. To many people it has been a surprise that such a volume of water has continued to come from that source, but no one knows just the extent of the water bearing gravel nor how large or how permanent a supply can be secured from that source. The proposal to sink test wells and by this means gain definite information as to the quantity of the water there and the possibility as a permanent source of supply, is based on good judgment. Whether the expenditure of this sum proves that the field offers an adequate supply or cannot be depended upon, the money will still have been well spent.

THE LENGTH OF LIFE.

From the Youth's Companion.

Sickness and death have always existed in the world and always will so long as man's physical constitution remains what it is. The body is evidently intended to last only a certain time, altho man himself has unquestionably greatly shortened the length of its endurance. The limit of three score years and ten, set by the Psalmist, deprives us of many years that are our due.

Students of longevity have established the rule that the animal body, including man's, should endure, barring accident, five times as long as it takes it to reach full maturity, a mark by the complete ossification of the bones. In man that period is about twenty years, and man should therefore live to round out a century. That he usually lives only a half or three-quarters as long is his fault and the fault of his ancestors.

A French writer once asserted that a man is as old as his arteries, meaning that the degenerative changes of old age were dependent upon or measurable by the degree of hardening of the arteries. That is undoubtedly true to a certain extent, but epigrams do not solve problems or even explain facts. It affords slight comfort to know that we are as old as our arteries if we

MORTUARY

Russwinkle.

John Herman Russwinkle, an old and well respected citizen, passed away at his home four miles east of Meredosia Tuesday morning. He was born in Uphousen, Germany, Nov. 6, 1839, and was married to Mary Angel Puls, May 18, 1864. They came to this country in 1883. He is survived by his wife and four children: Henry, living at home; Mrs. J. D. Ommen and Mrs. Fred Heitbrink, living east of Meredosia, and John, living east of Arenzville. The funeral will be held from the home Tuesday at 12 o'clock and at 1 o'clock from the Trinity Lutheran church on the bluff east of Meredosia, interment in Trinity cemetery.

Flanagan.

John Flanagan, the infant son of Mr. and Mrs. Joseph Flanagan, passed away Wednesday evening at 9 o'clock at the home of his grandfather, Thomas Flanagan, on West Michigan avenue. Deceased was twenty-one months old. Mrs. Flanagan, grandmother of the deceased, died Monday of this week and her funeral was held the morning before the child's death. Brief funeral services will be held this afternoon and burial will be made in Calvary cemetery.

Mrs. M. L. Roberts was among city visitors yesterday from Franklin.

do not know how to prevent them from aging prematurely.

Fortunately, we do know many of the causes of the pesenle degeneration that cuts us off before our time. Heredity counts for much. Some families are long-lived; in others, most or all of the members die young. That sounds hopeless, yet we can do much by hygienic living to lengthen our days even if we come of a short-lived family. More than that, we can transmit to our descendants a still higher degree of stamina. The other causes of early aging may be summed up in the one word excess—overwork, mental or physical; worry, overeating, and oversleeping. Moderation (not insufficiency) in all things—eating, drinking, working, playing, sleeping—is the secret of health and longevity.

Rippling Rhymes

By WALT MASON

DOING ONES BIT.

How gladly I would do my bit, if I but had the chance! How joyfully I'd go and hit a Prussian with a lance! But I have spavins on my knees, a ringbone on my wrist, and I have foot and mouth disease, and so I can't enlist. A lot of us must stay at home, too lame to seek the front, too old to sail across the foam and do a warlike stunt. And yet we need not throw a fit, or gamble day and night, for we can surely do our bit, although we cannot fight. I cannot make the Germans die, or sink their submarines, but I can help the food supply by raising fields of beans. I cannot chase the brutal foe, and hew him with an ax, but I can help to make things go by paying up my tax. And I can make the kind of spiel that patriots admire, that makes the young man grasp his steel, filled up with martial fire. And I can set examples here, and more examples there, by hooting down all talk of fear, all dirges of despair. E'en tho my ailments made me sit supinely all the day, methinks I still can do my bit, and figure in the fray.

THIS DATE IN HISTORY

May 3, 1848.—Senator Stephen A. Douglas introduced into the U. S. Senate a bill granting certain lands, the proceeds of which are to be applied to the construction of a railroad connecting the Mississippi river with the northern lakes at Chicago. The bill was put upon its passage and decided in the affirmative, 24 members voting aye, 7 nays.

MATRIMONIAL

Henley-Wilkinson

In Bloomington last week took place the marriage of two young people well known in Jacksonville. The groom, Harry W. Henley, is a nephew of William Henley and is himself a former resident. The bride, Miss Blythe Wilkinson is a niece of R. W. Wilkinson, of South Clay avenue. Regarding the wedding the Bloomington Bulletin says:

"A wedding which will come as a complete surprise to the friends of the principals is that of Miss Blythe Stella Wilkinson and Harry W. Henley, both of this city, which was celebrated on Thursday evening at 8 o'clock at the home of the bride, 102 West street, Rev. A. K. Byrns, pastor of the First M. E. church officiated in the presence of a company of twenty-five relatives. The bride was attended by Miss Margaret Garling, and Arthur Wilkinson, brother of the bride served as best man. The home was prettily decorated for the occasion with cut flowers, and following the ceremony a wedding dinner was served.

"The bride is the charming daughter of Mr. and Mrs. Byron O. Wilkinson of 102 West street and moved to this city with her parents from Waverly, about two years ago. During her residence here she has made a wide circle of friends who will extend best wishes.

"Mr. Henley is the son of Mr. and Mrs. Oscar Henley of 305 East Olive street, and has made this city his home for a number of years. He is an entertaining and highly respected young man, and is in the employ of the American Express company in this city.

"Mr. and Mrs. Henley left last evening for a honeymoon trip to the southern part of the state and after May 10 will be at home to their friends in this city."

PATRIARCHS OF DISTRICT ASSEMBLE HERE TODAY
Annual Meeting of Seventh Encampment District Will Attract Many Odd Fellows to Jacksonville—Norman Waltrip, Grand Representative, to be Present.

As has been mentioned before, today will be an important one in Jacksonville for Odd Fellows, as the seventh annual meeting of the 10th district I. O. O. F. Encampment association will be held here. The convention will open in the hall of Temple encampment this afternoon. The district includes Morgan, Cass, Greene, Pike and Scott counties. Delegations will be here from Beards town, Waverly, Winchester, Whit Hall, Carrollton, Mercedosa and Barry.

Grand Representative Norma Waltrip will attend the meeting and the Patriarchs are expecting the presence of other Grand Encampment officers. The Rev. W. E. Spoons will be toastmaster of the banquet at night.

At the evening meeting the work of the patriarchal degree will be in charge of the staff of Temple encampment and the golden rule degree will be exemplified by the staff of Ridgely encampment. A joint staff will give the work of the royal purple degree. Social features of the occasion will not be lacking and an excellent menu has been prepared by camp No. 1. "Wives of the Patriarchs." A buffet lunch will be served at 6:30 o'clock and the banquet will begin about 10:45.

The reception committees from the two encampments are: Ridgely N. J. Herman Weber, T. M. Tomlinson, J. T. Osborne, Charles S. Black and Stansfield Baldwin. Temple No. 19: T. S. Martin, J. Marshall Miller, John Deatherage, Thomas Harber and P. G. Stein.

CONGRESSMAN MCKINLEY NOW FAVORS PROHIBITION.
The following story from Shelbyville states that Congressman W. B. McKinley, is now strongly in favor of country wide prohibition.

"Congressman W. B. McKinley has expressed himself to the people of Shelbyville, thru the Ministerial association, as favoring the Shepherd bill to prohibit the manufacture and sale of intoxicating liquors throughout the United States. In answer to a message sent to him, as well as to the Illinois senators and President Wilson, Rev. N. H. Robertson, secretary of the Shelbyville ministerial association, has received the following reply from Congressman McKinley:

"I have your telegram. I expect to vote for the bill.

Yours very truly,
"William B. McKinley"

SOUTH JACKSONVILLE BOARD TAKES OFFICE

J. H. Hackett Lays Down Office He Has Held for Two Terms and L. O. Berryman Assumes Leadership of Village Association — The Committee.

The village board of South Jacksonville began the new term at the regular meeting, held Wednesday evening at Hehl's greenhouse. Committees were announced by the president and the matter of street oiling was discussed and left in the hands of the street and alley committee, with power to act. As the oiling last year met with general favor, there seems no doubt but that the practice will be continued as soon as the need arises.

The old board first went into session Wednesday night, with J. H. Hackett in the chair. The report of the treasurer, C. Riggs Taylor was heard and was the report of the village clerk, E. E. Beasly. When this routine business was completed the board voted a sine die adjournment. Mr. Beasly, clerk of the board, then called the body to order and administered the oath of office to L. O. Berryman, the president, and to O. B. Hehl, William Helfer and W. I. Crabtree, newly elected trustees. The other trustees, who, with the clerk, will finish their term of office next year, are James McGinnis, W. W. Barr and Henry Goebel.

Mr. Hackett Quits Office.
In laying down the duties of office, J. H. Hackett, retiring president, reviewed the pleasures and responsibilities which his term of service had brought. Speaking from an experience of four years, he tendered to the new president a hearty welcome and urged that the same spirit of co-operation be extended Mr. Berryman which had been shown himself in the past.

Mr. Berryman responded in hopeful vein, calling attention to the lines of progress which South Jacksonville civic affairs are following and thanking Mr. Hackett for his good wishes and calling upon other members of the board and citizens as well to realize that a presiding officer, to be successful, must have the hearty aid of all.

Committees Announced.
President Berryman then announced the standing committees, which follow, the chairman leading in each case:

Finance—McGinnis, Hehl and Goebel.
Light—Barr, Helfer and Crabtree.
Street and Alley—Hehl, Goebel and McGinnis.
Ordinance—Helfer, McGinnis and Crabtree.
Sewer—Goebel, Barr and Helfer.
Fire—Hehl, Crabtree and Barr.

These appointments were confirmed by the unanimous vote of the board. C. R. Taylor was re-appointed treasurer of the village.

EAGLES SELECT DELEGATES TO STATE CONVENTION
Michael McGinnis and Fred W. Doht were selected delegates to annual state convention by Jacksonville Aerie No. 509, Fraternal Order of Eagles at the regular meeting Wednesday evening. Walter H. DeShara and William Zastrow were selected as alternates.

The state convention will be held in Bloomington June 12, 13 and 14. Jacksonville Aerie is planning to take a large delegation. Already a warm fight is on for the next session of the order. Quincy, Peoria and Canton already have started campaigns to land the convention and it is probable that other cities will make a bid for the convention in 1918.

There was a large attendance Wednesday evening. John Dietrick was received into the order and applications of ten for membership were received and referred to the committee on applications.

Mr. and Mrs. Robert McBride of Springfield attended the funeral of Mrs. Flanagan at the Church of Our Savior yesterday.

MURRAYVILLE ASSOCIATION ENDS WORK OF YEAR

The Murrayville Parent-Teacher association held the closing meeting of the year Tuesday afternoon in Carlson's hall. "The Boy and His Gang" was the subject of a paper by Mrs. C. R. Short. Mrs. W. H. McGhee gave a reading which was much enjoyed and there followed a general discussion. "Resolved, that military training should be adopted in the public schools of the United States." E. R. Clemmons led the affirmative discussion and Mrs. W. W. Walker, the negative.

The meeting was opened by the singing of songs by children of the intermediate room. The singing of "The Star Spangled Banner" by the audience closed the gathering. The program committee for next year is composed of Mrs. H. B. Daniel, C. J. Wright and Mrs. C. R. Short.

Smith Taylor of the east part of the county was among the city arrivals yesterday.

SPEAKS OF ENTRY OF UNITED STATES IN WAR

President of German Reichstag Addresses Chamber

Asserts A New and Mighty Opponent Has Joined the Ranks of Germany's Enemies—States Wilson Desires By His Message to Sow Discord in Germany.

Amsterdam, May 2.—Via London.—The German Reichstag resumed its session today. The President of the chamber, Dr. Johannes Kaempf, in his opening address, speaking of the entry of the United States into the war said a new and mighty opponent had joined the ranks of Germany's enemies. President Wilson in a message to congress on April 2, he declared, said he was waging war against the Germans in the interests of mankind and on the ground of justice.

Did Not Move to Hinder Britain. President Wilson, Dr. Kaempf continued, had lost his sight in making this assertion, since he had not stirred a finger to hinder England when England announced her war of starvation against Germany, a war in violation of all human and international rights. President Wilson had lost his sight when he rejected the German proposal to secure the lives of Americans on American vessels in certain routes which carried no contraband and by this rejection exposed his own compatriots to danger and death.

"President Wilson," said Dr. Kaempf, "represents the German people as without will of their own and as having been driven into the war by a group of ambitious people, but he tells nothing of the long years of enmity and machinations against them; nothing of the enemy's recently strongly expressed will to destroy Germany."

The German people rose in August, 1914 and still fight today to defend their freedom, independence and life. President Wilson says he has no quarrel with the German people, for whom he only entertains sympathy and friendship.

Says Wilson Will Bite Granite. "President Wilson desired by his message to sow discord in Germany. As president of the German Reichstag, which is elected on the freest franchise in the world I declare that this effort will come to naught on the part of the United States, but the common sense of our people and that of President Wilson will bite granite." This remark evoked thunderous applause.

"With our truest heart's blood we established the German kaiserdom and with our truest heart's blood we shall fight for the kaiser and the empire (renewed applause). What our forefathers fought for and longed for, what we have achieved on the battlefield, will not perish, even at President Wilson's word of command. We decline all interference by a foreign government in our internal affairs. If all signs are not misleading the decisive point of the world's war is approaching. We see our death-defying troops withstanding the enemy's assaults. Our U-boats will show England how Germans can avenge her nefarious starvation war. We proved recently our financial strength by a sixth war loan. We adhere to our firm belief in Germany's star and in a peace which will secure for all time the fatherland's happy development."

There was a fresh outburst of applause as Dr. Kaempf concluded and the chamber then proceeded to the second reading of the budget.

WAR NEWS SUMMARIZED

That Germany's submarine arm, not her military arm, is the menace which for the moment is greatest for the future welfare of the United States and the entente allies is recognized by the Chancelleries of all the powers which are at war with Germany.

The last days of April saw the under water boats send to the bottom hundreds of thousands of tons of shipping.

These submarines from April 20 to April 27 had their share with mines in sinking, some of them unwarned and with tolls of death, 38 British vessels of over 1600 tons and 13 others of less than 1600 tons—the aggregate in each category being only two vessels less than the British admiralty reported the previous week when the high point in the sinking of the British merchantment since the reports have been issued was reached.

Impetus is being given to the plans to combat the menace to countries at war with Germany.

Military activity on all fronts in France and Belgium are still in a stage of apparent deadlock, but the big guns everywhere continue roaring in violent duels. On none of the other fronts have there been engagements of great importance altho the British in Mesopotamia have driven forward their lines against the Turks and made captures of men, guns and stores, while the Turks have forced out the Russians from Mush in Turkish Armenia.

SWISS FEAR U. S. MAY RESTRICT EXPORTS

BERNE, Switzerland, May 2.—via Paris.—There is growing anxiety in Switzerland that the United States may restrict exports to neutral countries and Edmund Schultess, president of the federation today gave the Associated Press a comprehensive statement of the situation.

The president made a warm appeal to President Wilson and the American people not to allow a small sister republic to meet the tragic fate of starvation, which would be her inevitable lot if her imports were reduced and clearly outlined Switzerland's utter dependence on not only America but both groups of European combatants.

President Schultess likewise pointed out just what supplies were needed from the United States, but denied categorically that any portion of such supplies goes to the central powers. He explained the measures taken to control imports and prevent them from being sent out of Switzerland.

PRIVATE BANK BILL WILL COME UP TODAY

SPRINGFIELD, Ill., May 2.—The fight on a bill to regulate private banks is expected to begin on the floor of the senate tomorrow when consideration of S. B. 469 on second reading is begun.

The bill provides for the compulsory incorporation of private banks in Cook county.

Senators Turnbaugh, Kessinger and Barbour indicated tonight that they would insist on a test of strength to determine if a bill could be passed which also would regulate down-state private banks.

PASS GOOD ROADS BILL

Springfield, Ill., May 2.—The \$500,000 good roads bill to which two score amendments were added yesterday passed the senate without debate today.

WILL ISSUE TWO BILLIONS IN BONDS

(Continued from Page 1)

the general direction and supervision of the entire operation will be maintained at Washington. Agencies outside of the banks themselves such as postoffices, express companies, department stores, newspapers and other volunteers who have come forward in great numbers to offer their service and facilities to the government, will be brought into co-operation with the general plan. "It is immensely gratifying to have received such hearty assurances of enthusiastic and patriotic support from every element of the country in making this great 'Liberty Loan' an overwhelming and striking success."

"The greatest immediate service, the American people can render in this war for universal liberty throughout the world is to furnish the means for its vigorous prosecution. This bond issue is the first step. I earnestly bespeak the co-operation of every citizen throughout the length and breadth of the land in this great service and patriotism."

LETTERS REVEAL SORDID STORY

that Mrs. Vawter had left the room he went downstairs and got his pistol. In the hall he met his wife, he stated, and she clung to him and said: "Kill me first."

At the top of the stairs he grappled with Heth, who choked him and as he was losing consciousness he fired the three fatal shots.

Several times during the examination the accused broke down completely and wept.

Mrs. Vawter was in the court room with the two Vawter children.

U-BOAT WARFARE MUST BE CHECKED

(Continued from Page 1.)

Secretary Lane advised the governors to let their people know the government is preparing for a long war and that every resource of the country must be developed to its utmost if the United States hopes to win. Germany, he declared, is putting up the greatest fight of history, and fighting on the defensive will be hard to defeat.

Daniels Asks State's Aid. Secretary Daniels asked the aid of the states in recruiting the naval personnel to 150,000 after the naval bill is passed.

Plans for the new army were outlined by Secretary Baker. No forecast, he said, is possible concerning the length of the war and prudent directs the country to enter on it as if it would be long.

SPRINKLING CAR RUNS WILD; TWO INJURED

DUBUQUE, Ia., May 2.—A heavy street sprinkler operated by the street car company ran wild down a hill street this morning, when air-brakes refused to work. The car left the tracks on a curb and turned completely over after striking the curb and mowing down some telephone poles. William Graham and Peter Miller, oldest men in the employ of the company who were in charge of the car were injured by being dashed to the brick pavement. Miller is in a serious condition in a hospital. He was injured in the same manner at the same spot a couple of years ago.

SET RECRUITING RECORD.

Washington, May 2.—Another high record for regular army recruiting was established yesterday when 2,617 men were accepted. Illinois, already holding a record, eclipsed her previous figures by enrolling 390 men. Indiana came second with 292, and Pennsylvania was third with 210.

BRITAIN'S WAR BUDGET SHOWS FEW CHANGES

Proposes no New Forms of Taxation—Bonar Law Introduces Measure in House of Commons

London, May 2.—Great Britain's war budget for the fiscal year which Andrew Bonar Law, chancellor of the exchequer introduced in the house of commons today contained no surprises and fewer changes from the existing taxation than did the previous war budget. No new forms of taxation were proposed. The only changes were increases in the excess profits tax, which was raised to 80 per cent from 60 per cent, the placing of excess profits on munition works on the same basis, an increase of tobacco duty by one shilling and ten pence on the pound, and increased entertainment taxes on the higher priced tickets. Economy in the employment of ships by government implement of all vessels except small coasters at fixed rates of pay also was announced.

Announcing the budget Mr. Bonar Law said: "There is ground for thankfulness that we are able to bear the financial strain laid upon us. These figures represent part of the price we have to pay for the greatest act of madness, the greatest crime ever committed in the history of the world. We can still say with our souls and consciences that it is a crime in which we had no share."

Mr. Bonar Law laid emphasis on the statement that Great Britain was paying a greater share of her war expenses from her income than were the other belligerents.

POSTPONE CONVENTION

Edwardsville, Ill., May 2.—An announcement is made by August Selzer, president, that the annual convention of the Illinois State Federation of German Catholic societies, to be held at Peoria, is indefinitely postponed. President Selzer said he feared that as many of the members of the federation would enter the army the convention would not be well attended.

COMMITTEE VOTES BILL OUT.

Springfield, Ill., May 2.—The bill to create a maternity fund to care for mothers at child birth and to furnish needed medicine and nursing for the child and a companion bill to increase the inheritance tax were voted out today by the senate committee on community welfare.

BALFOUR TO APPEAR BEFORE CONGRESS

Head of British Mission Accepts a Privilege Never Before Accorded a British Official.

Washington, May 2.—Foreign Secretary Balfour, head of the British war mission will appear before congress Saturday, a privilege never before accorded a British official.

In accepting today invitations of both the senate and house to address them at any time he might prefer, Mr. Balfour suggested Saturday at 12:30 p. m. It is understood he will make a brief speech in each house, the chief object of his visit will be to pay a call of courtesy, meet the members and to extend the greetings of the British parliament.

Mr. Balfour spent most of this afternoon with Secretary McAdoo and Sir Hartmann Lever at the treasury department, after devoting the morning to conferences at the mission's headquarters.

The trade discussions between British and American officials said now to have covered practically all the preliminary ground and to be waiting on additional information from England.

The South American trade situation has received almost no attention as yet for the British have regarded it as a question to be left largely to the United States because of this country's superior interests and better facilities for dealing sympathetically with that field.

CONTINUE UPWARD REVISION OF MEASURE

Committee Brings Total To Be Raised by War Revenue Bill To \$1,650,000,000.

Washington, May 2.—Persistent upward revision of the tentative draft of the war revenue bill by the house ways and means committee today brought the total to be raised up to approximately \$1,650,000,000 within \$165,000,000 of the amount originally suggested by Secretary McAdoo and refused by a sub-committee. Plans now are to raise the remaining \$165,000,000 thru consumption taxes, if necessary, or as a last resort by tariff changes. Agreement has been reached to discuss proposed tariff increases after all other questions have been disposed of.

One of the sharpest clashes of the meeting today was over the question of continuing the policy of secrecy in framing the bill.

The discussion centered largely about the excess profits tax and developed the old alignment of those who desire to make individual income taxes pay most of the burden, relieving business of it, and others.

Proposed taxes on wines and cigars also were discussed today. A few minor changes were made in the proposed cigar rates.

ANNUAL CONVENTION OF HOBOES OPENS

NEWARK, N. J., May 2.—Delegates from all parts of the country, attending the annual convention in session here of the Hoboes' union, are expected to adopt resolution opposing the draft and urging that measures be taken to insure universal peace. Delegates will be elected to the Socialist peace conference at Stockholm.

The sole woman delegate to the convention—Frances Westcott Water King, in charge of the Hobo hotel at Buffalo, wears deep mourning because, she explains, the United States is at war. She is the only delegate who did not reach Newark in a freight train.

DECIDE IN FAVOR OF GOVERNOR CAMPBELL.

Phoenix, Ariz., May 2.—The governorship contest between former Governor G. W. P. Hunt and Thomas E. Campbell de facto who has held office since early in the year on order of the supreme court, was decided late today in favor of Governor Campbell by Judge Stanford, of the superior court who has been hearing the case.

STRIKE CLOSES EVERY FOUNDRY IN BELLEVILLE

BELLEVILLE, Ill., May 2.—Every foundry in Belleville was closed today by a strike of 500 union stove mounters, and the sympathetic walk-out of four kindred crafts, foundry laborers, stove polishers, machine molders and steel range workers. Between 2,000 and 3,000 men are affected.

The union charged that several of its members were discharged without provocation.

GERMAN SEAPLANE TORPEDOES STEAMER

LONDON, May 2.—The admiralty announces that the Steamer Gena of 2,784 tons gross was sunk May 1 by a torpedo discharged from a German seaplane off Aldeburg (Suffolk, England).

All on board were saved. The admiralty announces that another seaplane concerned in the attack was brought down by gun fire from Gena and its crew made prisoner.

Coal Storage In May

Mine owners long experienced in the business tell us that coal stored in May will be found next fall in better condition than coal stored in hot summer weather.

The reason is that coal as it comes from the mines is damp with moisture and evaporation is rapid when the sun pours on coal cars. The condition which follows makes coal more likely to "slack". We believe the statement of these men experienced in coal storage and pass the advice on to the public for what it is worth.

MITZI HAJOS PLEASSED JACKSONVILLE AUDIENCE

Famous Prima Donna and Capable Company Presented "Pom-Pom" At the Grand.

The advance notices of the coming of Mitzi Hajos were not too eloquently written, for a large audience at the Grand Opera House last night found "Pom-Pom" in every way delightful. Mitzi Hajos, or as she is more familiarly known to the stage simply as Mitzi, has been increasingly popular with theatre goers of the U. S. for several years past.

This Hungarian prima donna, petite in figure, beautiful in voice and feature, has a "way with her" which goes straight to the hearts of her audiences. In "The Spring Maid" and "Sari" she scored successes only surpassed by "Pom-Pom", her present vehicle, which is presented under the direction of Henry W. Savage. It has been described as a new music and fun play and the score was composed by Hugo Felix of "Madame Sherry" fame. The supporting company with Mitzi is the same which has appeared in New York and Chicago and is a company which does not leave all the honor to the star, bright and clever and winsome as she is.

Conspicuous in the group of supporters is Tom McNaughton, sometimes called a clown and sometimes a comedian, and either name fits him well. Action, interest, music and comedy are combined with other good features in "Pom-Pom" and the production can well be termed one of the classiest seen in Jacksonville in many a day.

AFTERNOON MEETING OF INTEREST TO MOTHERS

Dr. Josephine Milligan to Speak on Conservation of Our Most Valuable Asset, the Child, at Christian Church Today.

One of the most interesting meetings of the series arranged in connection with Child Welfare week will take place at Central Christian church this afternoon at 2:30 o'clock Dr. Josephine Milligan will be the speaker and she will take as her theme, "How to Conserve Our Greatest Asset, the Child." Piano music will be furnished by Mrs. J. E. Martin. Mrs. Robert L. Stice will sing. Another feature of the afternoon will be the exhibition song and drill by pupils of the open air school. S. W. Nichols will speak on "Children of Other Lands."

The meeting will be held in the Sunday School auditorium, entered by the west door of the church. Tonight there will be a union parent-teacher meeting at David Prince school in connection with child welfare week.

The clinic is being continued at the city hall with the school nurse, Miss Gunhild Johnson in charge. The judging is taking place each day and the prizes are to be announced Saturday.

RED MEN'S PROGRAM IS ANNOUNCED

Arrangements Completed for Great Council to be Held at State Capitol May 15 and 16th.

At the Great Council meeting of the Improved Order of Red Men to be held in Springfield May 15 and 16th an interesting program has been prepared by the Springfield Tribes.

The Improved Order of Red Men is of purely American origin and its principles are founded upon Liberty. Its members made up the famous Boston tea party before the birth of the republic and its history has been closely intertwined with that of the nation thru the years.

One of the features of the Springfield session will be the conferring of the degrees of the order. The work will be exemplified by the degree team of Leola Tribe No. 331 of Cuba. The program in detail follows:

Monday, 9 a. m., State Haymakers' association will convene at Pawnee Wigwam, 124-13 South Fifth street.

Monday, 6:30 p. m., conferring of Past Sachem's degree at Pawnee Wigwam.

Monday, 8 p. m., conferring of all degrees at Arion hall. At the same time the Maud Muller's association will convene at the Wigwam of Massachusetts Tribe, Sixth and Monroe streets.

Tuesday, 9 a. m., kindling of great council fire at Arion hall.

Tuesday morning, great council. Degree of Pocahontas, will convene in Massachusetts wigwam.

Tuesday, 4:30 p. m., automobile tour of city for all visiting Red Men.

Tuesday, 7:45 p. m., reception of great chiefs and delegates.

Tuesday 6 p. m., ball at Arion hall.

Wednesday, business sessions of both great councils.

The sessions of the great councils will begin promptly at 9 a. m. Tuesday.

SOCIAL EVENTS

Osborne-Brown Wedding Party Entertained.

Dr. F. A. Norris gave a theatre party Wednesday evening at the Peacock Inn, honoring Miss Anna Pauline Brown and Marcy W. Osborne and the members of their wedding party. The guests attended the presentation of Pom-Pom at the Grand Opera house, going thence to the Inn, where supper was served. There were sixteen guests. Plum blossom sprays and garlands of sweet peas were used in decoration. After the supper dancing was enjoyed.

The guests were Miss Brown, Mr. Osborne, Miss Clara Lane, Miss Frances Hubble, Miss Millicent Rowe, Miss Mary Wadsworth, Miss Campbell, H. P. Samuel, R. Y. Rowe, Warfield Brown, C. M. Bell, Mrs. Lillian Woods King, Mr. and Mrs. William Barr Brown and Mr. and Mrs. Edward Brown.

Auf Wiederschen Club Entertained Wednesday.

Mrs. G. W. Siegfried entertained the Auf Wiederschen club Wednesday afternoon at her home, 607 South East street. Refreshments were served during a delightful social afternoon. Guessing contests added to the merriment of the guests.

The June meeting of the club will take place Wednesday, the 6th at the home of Mrs. J. T. Esmond.

Gave Newly Weds Charivari

About seventy-five neighbors and friends gave Mr. and Mrs. Newton Wilson an old fashioned charivari at the home of N. T. Fox Wednesday evening. The couple were married last Saturday night at the home of the bride's father S. J. Baxter in Woodson. The evening was spent in a pleasant manner and refreshments were received.

Sinclair Country Club Has Musical Program.

The Sinclair Woman's Country club held a regular meeting Wednesday afternoon at the home of the Misses Mahon and the members enjoyed a "musical afternoon." A paper on "The Value of Music" was read by Miss Rowena Sinclair. Instrumental numbers were given by Miss Elizabeth Mahon. Mrs. Newton Wilson played. Mrs. James Mahon was a guest of the club.

The next meeting will be held Wednesday, May 16th at the home of Mrs. Clyde Martin.

Miss Breitwiser Hostess to World Wide Guild

The monthly meeting of the Helen Rawlings chapter, the World Wide guild, was held Tuesday evening at the home of Miss Eva Mae Breitwiser on South Main street. Miss Louise Guyette was the leader. Mrs. S. C. Fulmer of Indianapolis, general worker for the Baptist Women's Home Missionary society, was a guest and her talk to the chapter members was full of interest.

Miss Carrie Spires, president of the chapter, will entertain for the June meeting at her home on South Clay avenue.

RECRUITING OFFICE IS OPENED IN CITY

Sergeant Henson Assigned to Room in Post Office Building—Men Wanted for All Branches of Service.

Sergeant W. J. Henson of Peoria came to Jacksonville yesterday to open a recruiting office at the post-office building. Postmaster Dunlap has been informed of the officer's coming and a room had been assigned for the work. Postmasters in all parts of the country have been requested to co-operate with the military department in the effort to secure enlisted men. The belief is that the postmasters will be able to aid considerably in this work because of their knowledge of local conditions. Thru the office here recruits may enlist for any branch of the service for the war or specifying one, two or three years. The recruit also has the right of designating whether he shall serve only in the U. S. or may be taken to China, Panama, the Philippines, Hawaiian Islands or Alaska.

Sergeant Henson enlisted in 1897 in San Francisco in the fourth U. S. infantry and was stationed at Ft. Cook, Neb., twenty nine months. Then he served in the Philippines until June, 1912, when he returned to the states and was at the Presidio near San Francisco for a year. He was then assigned to the hospital corps at Ft. Logan, Col., but for the past six months has been serving as a recruiting officer.

GERMAN POLITICAL SYSTEM A FAILURE

Hamburger Fremdenblatt States Fresh Blood Must Be Infused in the Government.

Amsterdam, via London, May 2.—The Hamburger Fremdenblatt, at the end of a three column editorial, comes to the conclusion that the German political system is a failure and must be changed. The paper says:

"There is no use theorizing. There is something wrong with our governmental system, as is clearly proved by Germany's political failure and in fact by the whole war. Fresh blood must be infused in the government."

The Prendebblatt advocates the removal of the bureaucratic barriers in order to allow the parliament and government to work in closer touch.

The Berlin Tageblatt takes up the statement of the Koelnische Volks Zeitung that at a free masons congress in Paris it was decided to instigate an anti-monarchical movement in Germany with the chief aim of dethroning the emperor. The Tageblatt says that leaders of German Free Masonry have informed it that they have absolutely nothing to do with such outgrowths of so-called international Free Masonry. They stand on a strictly national basis, are determinedly loyal to the emperor and empire and the paper says, do not concern themselves with political machinations.

MINNEAPOLIS SYMPHONY ORCHESTRA.

Among the artistic group of soloists who are to appear with the Minneapolis Symphony Orchestra at the Grand Saturday afternoon and night is Richard Czerwony, violinist and concertmaster of the Orchestra.

But few violinists have established a firmer or greater reputation than this young artist whose fame is well known in Europe as well as this country. Leopold Schmidt, the famous critic of the "Berliner Tageblatt" showed a true prophetic instinct when he wrote of Mr. Czerwony's first appearance in Berlin in 1906: "In the Singakademie Hall last night, a young man of about eighteen celebrated his first triumph, playing Kruch's 'Scotch Fantasia' and the Hungarian Concerto by Joachim, assisted by the famous Berlin Philharmonic Orchestra. A violinist, Richard Czerwony, whom we will surely meet as a great master, in a short time, I think, he is a genius. Under the direction of Moser and Joachim he has grown to an excellent artist already. His tone is pure and full of expression and his virtuosity eminent. His appearance is a most pleasant one and his violinistic gifts speak from each phrase. His playing last evening entitles him to the most famous future." Herr Schmidt's prophecy has been fulfilled for since then Mr. Czerwony, in a concert tour thru Germany, Austria, Russia, Holland and Scandinavia, and since coming to this country seven years ago, has established a reputation second to none.

GERMAN WAR DEAD TOTAL 1,300,000

AMSTERDAM, via London, May 2.—One million three hundred thousand Germans have perished in the war according to a statement made by Joseph Friedrich Naumann, formerly a conservative member of the Reichstag. Herr Naumann lecturing on "The Influence of the War on Population," said in part:

"Until now the war has caused a loss of 1,300,000 dead. This, together with the decrease in birth, gives a reduction of 3,000,000. The surplus of females has increased from 800,000 to far more than 2,000,000. The nation has bled as never since the thirty years war."

The report of the lecture contained herein did not state where it was delivered.

MAKE NO PROGRESS IN SEARCH FOR MEN.

Pittsburgh, Pa., May 2.—Consul and representatives of the Attorney General made no progress today in their search for the seven men accused by J. Denny O'Neill, insurance commissioner of Pennsylvania of conspiring to defraud the Pittsburgh Life & Trust company out of \$1,000,000. None of the men could be located. It was intimated, additional warrants were to be sworn out and that other men would be involved in the prosecution.

Senreco
The double-service tooth paste, keeps teeth clean AND GUMS HEALTHY.

Keeping the gums healthy and the mouth sweet is very important to health; more teeth are lost through the loosening of the tissue that holds the teeth in place than from decay.

Dental science to-day demands that a tooth paste must keep the gums healthy as well as clean the teeth.

Senreco was formulated to meet this requirement. Hundreds of dentists are prescribing and using Senreco because they have found that it does measure up to that standard.

SENRECO IS A WONDERFUL CLEANSER.

In addition to its remedial properties Senreco is a wonderful cleanser; acts directly on the mucin film, the basis of tartar, leaves the mouth cool and clean feeling. As some one has expressed it—Senreco gives one a new idea on mouth cleanliness.

Get a tube to-day at your druggists or toilet counter—enjoy the healthy, cleanly feeling its use gives your mouth and gums. Notice how brilliantly white Senreco makes your teeth. It performs this two-fold service for you and yet costs no more than the ordinary, old-fashioned tooth paste that simply cleans the teeth and leaves a pleasant taste—25 cents for a large 2 ounce tube.

PAVING CONTRACTS WERE AWARDED YESTERDAY

John E. Bretz of Springfield has work on North Church, West Court and Sandy Streets. Other Street Contracts Postponed Until Friday

The board of local improvements held a meeting Wednesday afternoon when the contract for the paving of North Church street with tar was let to John E. Bretz of Springfield, on his bid of \$6,687.91. Mr. Bretz was also awarded the contract for cressote block paving on North Sandy street, West Court and North West streets. His bid for this work was \$8,166.17. The contracts for the paving of East State street, South Main street and West State street were not let as there are several matters with reference to these contracts which must be settled. The city council, city attorney Reeve, representatives of the Jacksonville Railway & Light Co., and the contractors were in conference and the board of local improvements was adjourned until Friday afternoon. At that time it is the hope that contracts can be awarded in accordance with the bids recently submitted.

MRS. HENRY BROWN DEAD AT WHITE HALL

Deceased Distant Relative of Late James J. Hill—News Notes.

White Hall, May 2.—Mrs. Henry S. Brown, whose precarious condition has been previously mentioned in these columns, died at 2:10 o'clock this morning at her home on South Main street, aged about 35 years.

Her maiden name was Hill, and she and Mr. Brown were married at Carrollton fifteen years ago, since which time they have resided in White Hall. She was a distant relative of the late railroad magnate, James Hill. The husband and five children survive.

Funeral services will be held in the Christian church at 2:30 Friday and the interment will be in the White Hall cemetery.

Harve Smith, residing on the Strang farm east of White Hall, is in a precarious condition with paralysis, the stroke having come upon him Sunday.

Cliff Siskwood is here from Beards-town this week. He is a fireman on the Burlington and moved to Beards-town from Centralia two months ago.

Wanted, night porter. Douglas Hotel.

INSPECTED WIRE SERVICE.

J. N. Swift, representative of the American Telegraph and Telephone company was here from Bloomington Wednesday evening. CHAMPION WALKER VISITS THIS CITY

W. B. Meiller Is Taking Hike Across Country to Sacramento.

Walter B. Meiller of Huntington, W. Va., champion one and five mile walker of the world arrived in Jacksonville Wednesday evening. Meiller is hiking from Huntington to Sacramento, Cal., and back.

He left Huntington on January 29, and is taking the trip leisurely. He left Springfield Wednesday morning at 6:30 and arrived in Jacksonville Wednesday evening about 6 o'clock.

Meiller makes a specialty of exhibitions along his route. He usually gives exhibitions in skating rinks where they are located in the cities he visits. He offers to walk one mile while a roller skater does two miles. He also will engage in walking matches with local walkers or runners when the opportunity offers.

Meiller won the five mile championship at St. Louis last fall. He did the distance in 26 minutes and 20.2 seconds which beats the record held by Purdy since 1890.

Early in life Meiller was a professional baseball player and worked in minor leagues for several years. He says he was once given a tryout by the Boston Red Sox, when Jake Stahl was manager of that team. He says that when he found out he could walk he dropped baseball and took up that profession which he has since followed.

Meiller expects to remain in Jacksonville for a couple of days and may give an exhibition here if opportunity offers. He is a man of small stature but looks rugged. He is not trying for a record on his present walk but expects to engage in a match upon his arrival in California.

Jacksonville Lodge No. 570, A. F. and A. M., will hold a stated meeting tonight at 7:30 o'clock. Visiting brethren welcome.

GOOD PRICES FOR ANGUS CATTLE AT EAST ST. LOUIS

Aberdeen-Angus cattle, most of them yearlings, brought good prices at a combination sale held at the National Stockyards, East St. Louis.

The top price was \$350 paid by Price Smith of the Danmatt-Caudle-Smith Commission Company. He will send his purchase to his stock farm at Dexter, Mo. This youngster was not yet 10 months old and was bred by A. Middleton & Son, Assumption, Ill.

L. R. Kershaw, Muskogee, Ok., was the most extensive buyer. He bought ten young bulls early in the sale, including Heather Brilliant, 14 months old, for \$330. This animal was also from the Middleton farm.

About 100 animals were sold, few of them for less than \$100. The sale was conducted under auspices of the American Aberdeen-Angus Association of which M. A. Judy is field representative and included consignments from Missouri, Illinois, Indiana and Kentucky breeding farms.

MRS. E. H. H. CALHOUN NOW NATIONAL D. A. R. OFFICER

Former Jacksonville Young Woman Elected to High Post at Recent Continental Congress—Reviewed Work in State Chapter Under Her Regency

The State, published at Columbia, S. Carolina, in a recent issue presents a picture of Mrs. E. H. H. Calhoun of Clemson College, who is now vice president general of the Daughters of the American Revolution, and her son, John Ward Calhoun. Mrs. Calhoun's term as regent of the South Carolina D. A. R. expired at the close of the continental congress and she immediately assumed the duties of the larger office to which she was elected for three years. With the photograph in this paragraph:

The above is Mrs. Calhoun's photograph and the first one of the little boy which this department has had the pleasure of showing. A genuine D. A. R. baby he is, having been born while his mother was State regent. He early proved his patriotism by joining the Children of the American Revolution at the age of three weeks, and now at two and a half years he proudly salutes the American flag whenever he sees it. Mrs. Calhoun is succeeded as State regent by Mrs. E. W. Duvall of Cheraw, elected last fall at the Johnston conference.

At the recent continental congress in Washington Mrs. Calhoun made a report as state regent, which indicated very clearly that the South Carolina organization is one of the strongest and most active in the nation. In this report Mrs. Calhoun lays special emphasis upon the educational efforts of the organization and points to the great present need of patriotic undertakings. In part she said:

"Tonight, Madam President General and Daughters of the 26th Continental Congress, for the third and the last time as State regent of South Carolina, I am privileged to bring you greetings from the Palmetto State, and to report the activities of the year just closed.

"Our rapid growth and increasing interest are attested by the completion of seven new chapters, raising our roll to 51. We welcome the Walhalla chapter of Walhalla, Lone Oak of Latta, Charles Pinckney of Denmark, Henry Durant of Bishopville, Hudson Berry of Anderson, Jeremiah Jones of North and the Barnwell chapter of Barnwell. This is a total of 17 chapters and 586 new members added during my regency.

"With sorrow we report the transfer to our 'silent chapter' of many beloved members, including two of our real daughters, Mrs. Eliza Annie Spencer of Marion and Mrs. Fannie Monroe of Clinton. Only one real daughter now remains to us, Mrs. Ann Josephine Avant of Marion.

Industrial School Launched

"Our state conference, held at Johnston in November, was one of the most harmonious, enthusiastic ever had. Here the industrial school for our mountain section, which we have had in prospect for two years, was formally launched. The site accepted contains 119 acres, situated at Tommassee, 10 miles from Walhalla, the terminal of the railroad. The location is of historic interest, for it comprises a part of the revolutionary land grant to Gen. Andrew Pickens, and it was here that hero retired to spend the closing years of his life. This 'sunset corner' of South Carolina is one of the most beautiful parts of our picturesque Blue Ridge mountains. Our site is practically adapted to our needs, having sufficient water power to satisfy school needs and being accessible by good roads. The whole campus will be planned from the beginning, and each unit as erected will be fitted into the general scheme, so that time will find a harmonious whole. School will open in the fall with three buildings—a school building, a model cottage home and a cheese factory. The home where domestic science will be taught, will be the social center for the community and the nucleus of a girls' dormitory. The cheese factory, which will be a part of the government plan to encourage stock raising in the mountain districts, will teach the older pupils an industry and probably bring some income to the school. We will have the co-operation of the county demonstration agents in organizing clubs among the girls and conducting clubs with the boys. We will also have valuable aid from the state extension department and the state agricultural college. A campaign is under way for endowment, the first \$10,000 of which is to be secured by pledges of \$100 each from 100 chapters or individuals who will thereupon be enrolled as founders of the school. This sum, if preferred, over 60 of the desired 100 founders have already pledged. We hope that the Daughters and the chapters which realize the importance of this work and the opportunities for service it opens up, will wish to become founders of this school and will be interested in helping it because it is a D. A. R. school and they are thus assured that the money will be honestly and wisely expended.

Georgetown School

"The State department put itself on record as favoring the Wyoming idea of high school military training and the chapters have tried to interest their local high schools in adopting this excellent system. The Belgian relief work has not been forgotten, and several hundreds of dollars have been sent to the Belgian children.

"While our local work has taken an unusual amount of time and money this year, we have not forgotten an offering to Continental Hall and to the other requests which have come from without the state.

"In closing this last report of my regency, I wish to thank the nation's officers for the many courtesies which have helped forward my work, and commend to you all my charming

SUNDAY S. ADDITION PLANNED BY BAPTISTS

Building Fund Committee Named at Business Meeting Wednesday Evening—Arrange Thank Offering Services.

The First Baptist church held a business meeting last evening at which time resolutions were adopted as recommended by the advisory board, providing for the creation of a building fund to be known as "The Building fund of the First Baptist Sunday school."

The plans call for an up-to-date addition to the church which would be used for Sunday school purposes. Present facilities are hardly adequate, and the need for better quarters has been felt for some time. One class, the Baraca, meets in the frame building, to the north of the church.

The resolution provides for a committee of seven, representing the different departments of the church. This committee will have charge of the raising of the fund, and shall plan for an annual thank offering day the Sunday before Thanksgiving. The building fund committee as appointed is as follows: Carl E. Weber, Dr. G. H. Kopper, Carl E. Robinson, L. B. Turner, Charles H. Story, Miss Mabel Goltra, Mrs. A. B. Williamson. The proposed building is not to be erected until half of the necessary amount is raised.

AGED RESIDENT OF STATE DEAD

Urbana, Ill., May 2.—Judge J. O. Cunningham is dead here. The deceased has long been a resident of this locality and was prominent in the early days of the state, enjoying the close friendship of Abraham Lincoln. Judge Cunningham was born in Lancashire, N. Y., in 1829, and came to Champaign county in 1852. For a number of years he engaged in the newspaper business. With passing years the deceased acquired large property holdings and was very liberal in philanthropy. One of his benefactions was the establishment of the Cunningham leprosy home and orphanage thru a donation made to the Woman's Home Missionary society of the M. E. church. The property given is valued at \$150,000.

and capable successor, Mrs. E. W. Duvall of Cheraw.

Respectfully submitted, Grace Ward (Mrs. F. H. H.) Calhoun.

With Mrs. Calhoun elevated to her present high office it is only reasonable to assume that coming years will find her still higher in the council and direction of the national D. A. R., and thus not only South Carolina but this state will be honored, for it was here that Mrs. Calhoun as a daughter of Mr. and Mrs. John N. Ward grew to womanhood.

Mrs. Nettie Sheppard spent Sunday afternoon with Mrs. Ernest Millon.

Mrs. George and daughter Mildred moved to Jacksonville Wednesday.

SECURED WATER SAMPLES

Engineer Habermeyer, representing the Illinois Water Survey, was here yesterday to secure samples from several of the north side wells for analyses. It seems that even the water in the wells that are located near together varies in quality. Referring to the report of the survey, Mr. Habermeyer said that it was the desire to make some practical suggestions which would serve as a basis for beginning investigations which would finally lead to a permanent solution of the water question for this city.

FOR CLOSER STATE CO-OPERATION

Washington, D. C., May 2.—The adoption by all the states of uniform measures looking to a conservation of the food supply is probably the most important subject slated to receive most attention at the conference meeting at the War Department today under the auspices of the Council of National Defense. The governors of virtually all of the states have sent representatives to the conference, which is the first of a series of meetings intended to bring together the various States and Federal activities during the war. While the food situation has first place on the agenda, other problems having a vital bearing on the welfare of the nation and the success of the war are scheduled for consideration. Among other things it will be recommended that all of the states immediately start on the work of taking industrial censuses and inventories of their military resources.

POLICE FORCE CHANGES

Lee Deatherage, night patrolman of the local police force has resigned his position and will take up insurance work. Commissioner Martin has announced the appointment of John M. Ginnis to fill the vacancy. Mr. Ginnis is an experienced officer, having served for a number of years under several former administrations. Mr. Deatherage has had experience in insurance work and has a desirable position with a Springfield company.

MORE SUITS FILED IN CIRCUIT COURT

May Term Will Begin Monday the 14th—Suit to Enforce contract for Sale of Property Will Be Heard

Several additional suits were filed in the circuit court Wednesday for hearing at the May term, which is to convene Monday, May 14. James Rexroat, by his attorney, Paul Samuels, has brought a suit in assumpsit against P. R. Leonard. The claim alleged is \$500.

A suit to enforce a contract has been brought by J. P. Lippincott and L. O. Vaughn as attorneys for Hugo Hempel against H. H. Maul, administrator. It is set forth in the bill filed that as administrator of the estate of his father, Henry Maul, the defendant has refused to carry out a contract entered into with Mr. Hempel. It is this claim of Mr. Hempel that he purchased a house and lot in Frank's addition to Jacksonville from the late Henry Maul at a purchase price of \$1,600, and that a contract for the transfer was made, at which time \$25 of the purchase price was paid. Mr. Hempel declares that he has proffered the remainder of the money and that a deed has been refused.

The P. Burns Sadler Co. has filed by Bellatti, Bellatti & Moriarty a suit in assumpsit against W. T. Cook of Murrayville. The amount of the indebtedness is given as \$100.

Dear Sir:

I thought I would write you a few lines tonight. I guess you thought you would never hear from me again. Well Chief, I like it fine here. My training is almost over now. I am going out on the rifle range tomorrow and when it is over I will be sent away some place. I thank you very much for the job you got me but I went down to St. Louis got to looking around and started talking with a marine and went and joined and am glad I did for I like it fine. Hoping this will find you well, I will close.

Senator Yates' Reception Home

By Ensley Moore

(Member Illinois State Historical Society)

Senator Yates' Reception Home. The other night, at the Mississippi Valley Historical meeting in Chicago, the writer was speaking with Dr. Schmidt, President of the Illinois Historical Society, and the latter was asking about Jacksonville.

As Dr. Schmidt passed along, a gentleman came up to the "O. J." man and said:

"As you are from Jacksonville, you probably knew Major G. M. Connel?"

As "O. J." did not recall or recognize the gentleman, and was somewhat surprised, he said:

"How did you know I was from Jacksonville?"

The stranger replied: "Because I heard you talking with Dr. Schmidt, and then he added, 'My name is Eastman. They call me 'Col. F. A.'"

To this the writer at once replied: "I saw you at the reception to Gov. Yates, when he came home in 1865. I saw your wife there, and she was a pleasant and pretty lady. She had on a gray silk dress. Is she still living?"

"Yes," said Col. Eastman, "and when I write to her in the morning, I shall tell her that I met a man who saw her at the Yates reception, and remembered the kind of dress she had on."

We then had a very pleasant little conversation.

Col. Francis A. Eastman

was a State Senator from Chicago, at the time Gov. Yates was elected U. S. Senator, and was among the party that came down from Springfield to attend the reception home given Mr. Yates when he stepped up from state to national office. It certainly seems that Col. Eastman was one of the speakers at the banquet here, altho the Journal of that time does not say so.

Senator Eastman was afterwards Postmaster at Chicago, and connected with Chicago newspapers. He went to Wisconsin for some years, and then came back to Chicago, where, for a time he wrote delightful reminiscences for the "Inter Ocean" or "Herald". He still uses his pen, altho considerably older than he was in 1865. At present he is City Statistician of Chicago.

The Reception. The writer was also much younger, even than Col. Eastman, in those days, so, in the absence of the man of the house, he had the double pleasure of escorting the good lady whom he called mother, and of being at so grand an affair. As the Journal's account, following, will show, it was one of the great events in the history of Jacksonville. The subjoined description does not properly show, to present day readers, what the whole was, altho the editor evidently laid himself out to do justice to the occasion. Among the most noted parties present was Col. Jaquess, former President of what is now the Illinois Woman's College. A very interesting and amusing speaker was the retiring Lieutenant Governor, Francis A. Hoffman of Chicago. Strawn's Hall, at that time, would seat or hold nearly two thousand people, so it was really a large audience that was gathered there, especially in view of the fact that the population of Jacksonville was then much less than it is now, and the further fact that numbers of our men folk were then in the South, on important business.

Perhaps people of today do not realize the arduous task imposed upon Gov. Yates by the War, nor the fact that he raised and sent about two hundred and sixty thousand of the bravest of the brave to the front, among these patriotic volunteers being the invincible man from Illinois who finally put an end to armed resistance to the government. Thus Yates and Grant and Lincoln stood

foremost among the heroes of those long gone days.

Probably this is enough introduction to the storm of superlatives to which the newspaper man of that day gave himself up.

The Weekly Jacksonville Journal of Thursday, January 10, 1865, published by Ironmonger (Jos.) and Mendenhall, had, on the editorial page, as its principal article the following, headed:

"The Reception of Senator Yates."

Owing to some misunderstanding as to the hour of arrival of the train from Springfield, with Senator Yates and his friends the delegation to receive the guests of the city was not on the ground in time, and the first part of the programme was a failure. At an early hour in the evening Strawn's Hall was densely packed with one of the most respectable and appreciative audiences ever convened in this city. At half past seven o'clock Senator Yates entered the Hall and was received with shouts, clapping of hands, and the wildest enthusiasm. He was welcomed back to his home, and congratulated on behalf of the citizens by President Sturtevant, in a speech replete with eloquence, pathos and sentiment. It was indeed a masterly effort, and we hope to be able to lay it before our readers in our next issue.

Senator Yates was evidently much embarrassed and oppressed with emotion on first rising, but soon caught the inspiration of the occasion, and rose to the loftiest pitch of eloquence, pouring out his great soul in his sublime and touching words. The speech was one of the finest he ever delivered, and when published and will be read by thousands who were not permitted to hear it.

Sensors Eastman of Chicago Mack of Kankakee, I. Punk of McLean, Lieut. Governors Hoffman and Bross and the Hon. John Wentworth and Representatives Bushnell, Thomas and Hopkins, each made short telling speeches, every word of which had reference to the distinguished Senator and Ex-Governor, and were cheered to the echo. Notwithstanding, the hour was late, the audience was wild with enthusiasm and reluctant to quit the Hall.

At half past ten those who had procured tickets, together with thirty odd invited guests from Springfield and other portions of the State, re-assembled at the Dunlap House, where, after a social levee, a splendid repast was served to over two hundred persons, nearly half being of the fair sex. Toasts were read and responded to by Congressmen, Wentworth, Senator Yates, the Hon. Ex. Lt. Governor—the little, witty and funny Dutchman—Hoffman, Senator Mack, Col. Jaquess and Representative Bushnell.

On the whole this was an occasion long to be remembered by all who participated therein, and must have been a most grateful and satisfactory compliment to the distinguished and honored gentleman who was the recipient. It is more than worth a whole life of toil and even of persecution in a hopeless minority, to receive at last one such reception as this from one's neighbors and friends.

BIDS FOR COAL.

The Board of Education hereby asks bids for furnishing the coal needed by the city schools for the year ending April 1, 1918. Bids will be received until 12 o'clock noon, May 5, 1917, and are asked on 1 1/4 inch screened lump and 3 x 6 egg coal. The usual contract conditions will prevail, coal is to be weighed on city scales, and the board reserves the right of rejecting any or all bids.

Miss Pearl Ivey was a visitor in the Capital City Monday.

Mrs. T. K. Williams of Bluff Springs spent Tuesday in this city, the guest of her daughter, Mrs. Arthur Carls.

Epler Mills of Chicago is the guest of his mother, Mrs. Nellie Mills, prior to his departure for Fort Sheridan training camp.

Mrs. Hampton Looker was in "Chandlerville" Sunday where she attended the funeral of the late Mrs. Nathan Alcorn.

J. N. Ivey and grandson, Charlie Ivey, spent Sunday in Athens, the guest of relatives.

Oscar Greenwood who was taken to a Springfield hospital Monday has returned home.

Recruiting Officer Here. Mr. Poffenbarger, recruiting officer from Jacksonville, was in this city Monday and aroused the patriotism of about twenty young men. Some of the number left the same evening to enlist in the army. Others are contemplating an early departure.

R. A. Garner and Miss Noda Coulson of Chapin were the guests of the former's parents, Mr. and Mrs. J. W. Garner over Sunday.

W. K. Mertz of Chandlerville was a business visitor in this city Tuesday.

Miss Leta Debrates has been re-employed to teach the Oak Dale school.

At Chapin Convention.

Messadmes Wm. Higginson and R. E. Widmayer, left for Chapin today as delegates to the district convention of the Christian Endeavor which is being held in that city May 2 and 3. Rev. C. E. French and wife will attend also. Owing to the condition of the roads many who had intended going in automobiles were compelled to abandon the trip.

Services for Mrs. McConnell.

The remains of the late Mrs. Cynthia A. McConnell of McCook, Neb., arrived in this city Monday over the B. & O. railway and were conveyed immediately to Walnut Ridge cemetery where brief services were conducted by Rev. C. F. Juvinall. The deceased was a former resident of this city. The remains was accompanied by her son, Charles McConnell, also of McCook.

The epidemic of measles in this city had for a while subsided but at present seems to have broken out again as forty new cases have been reported.

Mr. and Mrs. Arthur Carls are visitors in Bluff Springs today.

WILL PROBATED.

In the office of County Clerk Bernitt Wednesday L. O. Vaughn offered for probate the will of the late Miss Ella C. Shuff. The document was drawn April 19, 1917, and the signature was witnessed by Julian P. Lippincott and Thomas Duffner. The testatrix directs that all just debts be paid and that all property of whatsoever kind shall go without reserve to Miss Irena B. Black, with the exception of a gold necklace, which is bequeathed to Mrs. Emma Hewes of Chicago.

STATE STREET AID.

The Aid society of State Street Church met Tuesday afternoon in the church parlors. A good attendance was present. After the various reports from the officers the members sewed for Passavant hospital. The society was divided into circles, the following ladies being appointed as chairmen of the committees: Mrs. David Reid, Mrs. J. K. C. Pierson, Mrs. E. E. Crabtree, Mrs. William Winchester, Mrs. Horace Bancroft and Mrs. John Cherry.

ARRESTED AND RELEASED.

A warrant was sworn out in Justice Dyer's court Tuesday for V. Lemons charging him with jumping a bond. The complaint was made by Mrs. Mary J. Taylor, Lemons was arrested by the authorities in Virden. Chief Davis sent an officer to Virden Wednesday and it was found that Lemons had been released by the authorities. It is said that the mayor of Virden said that he could not be held on such a charge and ordered his release.

RED CROSS EDIFICE SOON TO BE DEDICATED

Prominent Men Will Take Part in Impressive Ceremonies When Building Will Be Formally Opened—Cost \$800,000

Washington, D. C., May 2.—President Wilson and former President Taft are expected to take part in the ceremonies next week in connection with the formal dedication of the new Red Cross building which has been erected in this city as a memorial to the women of the civil war. It is planned to make the dedication an occasion for impressive ceremonies. Some of the most eminent men and women of the nation will be among the speakers and they will tell of the glorious work that is being done under "the red badge of humanity" to ameliorate the world-wide misery and suffering caused by the war.

The war has put such a volume of work on the Red Cross that it has been found to be impossible to spread the labors even for the dedication of its new home. Consequently, the dedication will occur in Continental Memorial hall, the D. A. R. building adjoining the Red Cross building on the south. After the ceremonies the public will inspect the new Red Cross building, as far as this can be done without interfering with the work going on inside.

The Red Cross building faces the wide sweep of grounds back of the State Department and Vaux's Hotel. The building and site were provided by Government appropriation and private subscription. An appropriation of \$400,000 was made by Congress, on condition that the Red Cross raise an equal amount by private subscription. The additional sum was made up by the following subscriptions: Captain James A. Scrymser, \$100,000; Mrs. Russell Sage, \$150,000; Mrs. Edward A. Harriman, \$50,000; the Rockefeller Foundation, \$100,000.

The building and site are to be turned over in perpetuity to the American Red Cross, to serve as its permanent home and to provide accommodations for all of the administrative officers in charge of the Red Cross work.

Like most of the other edifices in the state group about it, the Red Cross building is of white marble and the general design of the structure, its facade, columns, etc., are on classic lines. A parked terrace raises the building above the street level, and wide marble steps lead up to the entrance. A row of twelve Corinthian columns of white marble stretch across the entire front of the structure, the capitals supporting the copper finished roof. Two massive bronze entrance doors are one of the striking features of the architectural design.

Within the high-arched vestibule a flight of broad marble stairs leads to the second and third floors. On the stairways landing a marble tablet has been placed bearing the following inscription:

A memorial built by the Government of the United States and patriotic citizens to the women of the North and women of the South held in loving memory by a now united country, and that their labors to mitigate the sufferings of the sick and wounded in war may be forever perpetuated this memorial is dedicated to the service of the American Red Cross.

Another notable feature of the building consists of three memorial windows by the women of the civil war organizations. One of these windows was given by the United Daughters of the Confederacy, another by the Woman's Relief Corps of the North, while the central window was provided by their joint gift.

On the first floor a large assembly room and library take up one side of the building, and will afford a meeting place for the large gatherings of the organization. Two entire floors are devoted to the extensive working quarters of the society, the numerous officers being equipped to accommodate all of the branches of the organization, with its various activities in peace and war. The War, National and International relief boards each has rooms particularly fitted for its special work. Other quarters are provided for the army surgeon in charge of hospital field units and the enrollment of doctors, the first aid instruction department, the nurses enrollment bureau, the town and country nursing service and the Christmas seal division.

BUILDING ACTIVITY SURPASSING RECORDS

Remodeling and Rebuilding of School Houses Greatest in History of State—Standardization Law Appeals to Pride of Teachers and Officials

Springfield, Ill., May 2.—Despite the high cost of building materials, never in the history of Illinois has there been so much remodeling and rebuilding of school houses as now, according to Francis G. Blair, state superintendent of public instruction.

"This movement promises to continue indefinitely," says Superintendent Blair, who attributes the building activity to the operation of the standardization law of 1907 which lays definite obligations on school boards and trustees.

This standardization law does not force school authorities arbitrarily to conform to certain plans, but offers recognition in varying degree which is an appeal to the pride of teachers and officials.

Figures for the state, quoted in the bulletin, show that 9,363 school buildings conform to standards laid down in the sanitation law.

By summer, fully ninety per cent of the schools in Illinois will be in a condition to conserve the health and safety of the children as well as to afford favorable conditions for their instructions," says Mr. Blair in the bulletin.

HOTEL CHANGE.

It became known recently that Hal C. Foulk, who has in the past served as manager of several hotels in Jacksonville, had disposed of his interest in the St. George hotel at Carlville to W. B. Green, formerly in charge of the Colonial hotel at Jerseyville. Mr. Foulk left here some years ago to take charge of the hotel he has just disposed of. He and Mrs. Foulk will visit for a time in Springfield and have not as yet decided upon a future location.

tle Fourteen Innings to a Tie

Chicago, May 2.—A world's record
was established here today in a ten
inning game between Chicago and
Cincinnati, when after the game had
gone nine innings, neither club had
registered a hit or run. Cincinnati
won 1 to 0. Tony, did not allow
a hit during the entire game. For
nine innings Vaughn, admirably sup-
ported, did not permit a Cincinnati
player to reach second. Tony allowed
but one Cub runner to reach the
keystone base during the nine in-
nings.

In the tenth after one was out
Kopf singled, went to third when
Williams dropped Chase's fly and
scored when Thorpe hit a slow
bouncer to Vaughn.

Itching Torture Stops
It is unnecessary for you to suffer
with eczema, blotches, ringworm, rashes
and similar skin troubles. A little zemo,
obtained at any drug store for 25c, or
\$1.00 for extra large bottle, and promptly
applied will usually give instant relief
from itching torture. It cleanses and
soothes the skin and heals quickly and
effectively most skin diseases.

Zemo is a wonderful, penetrating, dis-
appearing liquid and is soothing to the
most delicate skin. It is not greasy, is
easily applied and costs little. Get it
today and save all further distress.

A VETERAN'S APPEAL

The following patriotic verses are
printed at the suggestion of Mrs.
Anna DeLess who supplied a copy
of the paper in which they appeared:
I've been reading in the papers as
they come from day to day,
And I've read most every single
thing that Wilson's had to
say.

I've watched the acts of Congress,
How some members tried to
sway.

This here glorious Republic from the
straight and narrow way,
And I do not just exactly like the
way they run this show;

Gosh, I wish they'd give us veterans
the oars and let us row

For these warlike preparations take
us back to '61.

And we seem to live again the days
when war was just begun.

How they called us to the colors and
we went, most every one;

How whole families enlisted and
sometimes an only son.

Those were stirring times, I tell you,
and although my step is slow,

Holy Moses, how I wish they'd give
us "boys" a chance to go.

We were younger then, these same
old boys; our hair was not so
white,

And our ranks were not so thin as
I see them here tonight.

We were fully armed with courage,
for we knew our cause was
right.

And we never hesitated for we knew
that "right" was might.

Say, we made good soldiers for you
then, our records do not lie.

You gave us then a place to fight,
now give us one to die.

Old age is fast depleting us; we'll
soon be called to go.

But I'd like the satisfaction, ere I
leave this world of woe

Just to feel once more the flag staff,
That this glorious old land of ours is
not so doggone slow.

And I know old "Billy Sherman,"
were he with us here tonight,

Surely would provide a place for us
where we could go and fight.

So we make this last appeal to you,
us veterans old and gray.

For we see so many slackers living
with us every day

Who've no courage for to go and
fight; they're only in the way.

Rout them out and put us "old
boys" in, and put your life
we'll stay.

For we quite remember all the sounds
of bursting shot and shell.

Just turn us loose, we'll show you
how to give the Germans a—

MAY SPRING SURPRISES

ON GERMANS
Detroit, Mich., May 2.—Some new
methods of warfare, as surprising
and effective as the gas bomb, the
liquid fire and other devices already
introduced in the European war,
may be disclosed at the annual
spring meeting of the American El-
ectrochemical Society, which began
its sessions in this city today. Mem-
bers of the society, it is said, have
been experimenting for some time
with a view to making a discovery
that would help America to win the
war and at the same time shed glory
on the profession they represent. Re-
search work also is being conducted
along lines to aid the nation in keep-
ing its agricultural and industrial
activities going ahead at full steam
during the period of the war.

THE BASEBALL GOAT

Each day the papers carry a story
of yesterday's hero, giving the name
of some player who won a game by
a timely wallop or pulled off some
great holding stunt.

Nothing is ever said about yester-
day's goat in the baseball world.
However, there is one each day, just
as there is a hero. Usually this
goat would be a player who lost a
game by some bone play or by strik

WHEAT MARKET MAKES SENSATIONAL ADVANCE

After a jump of 17 Cents Market Closes Unsettled at Net Gains of 4 to 12 Cents—Other Leading Staples Score Gains.

Chicago, May 2.—Reports that the German chancellor had postponed a speech in which he was expected to outline a new peace program brought about a sensational advance today in the wheat market here. After a jump that in some cases amounted to 17c the market closed unsettled at net gains of 4 to 12c, with May at \$2.69 and July at \$2.20 to \$2.21. The other leading staples too, scored gains—corn 2c to 4c, oats 3c to 1c and provisions 2c to 5c.

It was not until the last hour of trading that the wheat market went kiting in good earnest.

Assertions that all British ships had been requisitioned by the British government added much to the impetus of the late upward swing of the wheat market, especially as winter wheat trades, although censured showed an advance of 3c.

Provisions advanced sharply to new high levels as a result of the bullish showing of the monthly statement as to warehouse stocks of hogs.

Packers and strong commission firms were the chief buyers.

LIVESTOCK MARKETS

Chicago, May 2.—Demand from Eastern shippers helped today to harden prices of hogs. Offerings of cattle were much more numerous than had been expected. Holders of sheep made no attempt at a fresh advance in values.

TRADERS DIVIDED IN OPPOSING CAMPS

One Faction Evidently Favors Higher Prices For Speculative Issues While a More Formidable Element Engaged in Attacks on Seasoned Issues.

New York, May 2.—During the first half of today's professional market traders seemed to be divided in opposing camps, one faction evidently favoring higher prices for such speculative issues as shipwrecks and fertilizers, while a more formidable element engaged in further attacks upon seasoned issues.

Rails and tractions were under incessant pressure, the movement culminating with a general selling movement in the last hour the list closing with a weak tone.

Tractions were under a similar disadvantage as to financial returns. The early rise in fertilizers, which averaged 2 points resulted from the announcement of the government's intention to appropriate a large sum for the purchase of nitrates and other products in the interest of the American farmer. Shippings and associated shares were disposing during the forenoon to add to gains of the preceding session, but broke sharply later on reports of further marine disasters in the war zone. The precipitate decline of rails continued.

United States steel was consistently heavy, just before the end breaking to 115 1/2 and closing at the minimum, a net reversal of 1 1/2 points.

Popular equipments, munitions, oils and motors suffered to a like extent. Total sales amounted to 455,000 shares.

The general bond market kept poor pace with stocks, some of the underlying or junior issues displaying weakness. Total sales, (par value) aggregated \$4,425,000. United States bonds were unchanged on call.

"Inside" Information About Eczema

Washing the skin, rubbing salves and lotions on it, will not cure your Eczema. You may temporarily relieve the constant itching, but if you want to get at the seat of the trouble, you must purify your blood.

Infected blood is dangerous, and when the watery sores and pimples appear, you should lose no time in procuring a bottle of S. S. S.

This great remedy, which was discovered over fifty years ago, will wash out and strengthen your blood, and the annoying and disgusting eruptions of the skin will disappear, and you will soon feel healthy and vigorous again.

S. S. S. being purely vegetable, is entirely free from all "dope" and drugs; get it at your druggist's and insist upon the genuine. For free, expert advice, write to our Medical Department, Swift Specific Co., 307 Swift Building, Atlanta, Ga.

Good Food and Cheap

(From Wallace's Farmer, Des Moines, Ia.)

If even a small part of the agitation on the food problem could be directed towards encouraging a common-sense use of the foodstuffs we produce most easily, our trouble would be over by the time the next crop is harvested. The United States can grow enough starch-producing food to feed the entire civilized world, and feed it well when combined with milk or other protein foods which can be produced in the various sections. In fact, low as our reserves of corn are at the present time, there is enough on hand to feed the United States and all of Europe until the next small grain harvest, if we should stop feeding corn to live stock. Of course, it is neither necessary nor wise to carry our food economies to any such extreme as this. We need the live stock, and much of it can be used only when fattened for market. But if it should develop that we are threatened with a famine, the danger can be averted in the way we suggest.

A large part of human food is starch. Most of the European races, thru long custom, have come to look upon wheat and rye as the two feeds best suited to furnishing them the starch needed. While wheat flour has become the most aristocratic source of sugar for white people, the Chinese and Japanese find their starch mainly in rice. Irishmen, and many other European people, as well as a large number of people in the United States, use potatoes very largely. Even in the corn belt, meat and potatoes furnish a large part of the human ration. Both here and throughout the world, we have shown a singular lack of intelligence in failing to recognize the value of corn as a palatable starch-producing food for human consumption. The Indian, the Mexican and the Italian use far more corn proportionately than other peoples.

Here in the corn belt, corn has been so cheap and so commonly used as feed for animals, that people have been disposed to turn up their noses at it. Probably the average American eats in the neighborhood of 300 pounds of wheat flour, 250 pounds of potatoes and fifty pounds of corn meal and other corn products annually. In other words, he looks to corn for about one-seventh of his starch food. Even under normal conditions this is wretchedly bad business policy, and under present conditions it should be given a stronger name.

Corn is as healthy a food for human consumption as wheat and potatoes. In fact, we suspect that, if careful experiments were conducted, it would be found even more healthful and more nourishing. Certainly, the whole corn kernel is far superior to the whole wheat kernel when used continuously. This was proved beyond doubt by Professors Hart and McCullum, of the Wisconsin experiment station, in experiments conducted with animals, covering a period of several years. They learned thru these experiments that the wheat germ contains a poisonous principle which prevents normal nutrition of breeding and growing animals. Fortunately, our process of making flour removes the wheat germ. Otherwise, white flour could not be strongly recommended as a steady diet. Animals fed exclusively on corn products, however, were found to retain absolute health and

to thrive much better than those fed exclusively on either oats or wheat products.

Potatoes agree with most people, but serious digestive disturbances are not uncommon with people whose diet consists largely of potatoes, especially if they are not well prepared. Corn appears to be entirely free from any of the objections which may be urged against either wheat or potatoes. When we learn how to prepare it, corn is highly palatable; and one year with another, there is no single food which can compare with it in the matter of economy.

There has been a good deal of hysterical talk over this food problem. All over the country, the people and the press are crying out to the farmer to produce more, and more, and governmental agencies are organizing to increase production in every way possible. This is all well enough, but most of these people seem to be going on the theory that the whole obligation rests on the farmer to speed up and furnish plenty of the same sort of food he has been furnishing.

How would it do to back off and approach the problem from an easier angle? That is, study how to use to the best possible advantage the food we do produce. If the daily press and the various organizations would give just half the space they devote to the food question, to explaining the value of corn, and to teaching their readers how to prepare it in various appetizing ways, the food problem would be quickly solved.

The world supply of wheat is short. The winter wheat crop is not encouraging, the condition and acreage in the United States promise only 45 per cent of a normal crop. If we should by any chance have a bad season, resulting in a short crop of spring wheat, half of the civilized world would find it absolutely necessary to use corn as a substitute. We have had bad seasons in the past, and we may have one this year. Therefore, we should not take any chances.

We should at once begin a systematic campaign to teach people how to prepare corn for food. The United States Department of Agriculture long since has built up a culture long since has built up a containing various recipes for corn dishes. These should be reprinted by the million, and sent over the country. Commercial clubs and other organizations in all cities should arrange for the distribution of such publications. They should go further, and arrange with bright young women to give corn-cooking demonstrations in various parts of the cities. The daily and county press should reprint food recipes. We should send to Europe a corps of competent corn cooks, and teach the starving peoples there how to use this greatest of all cereals. The interests of the United States and of the world can be served far better by a campaign of this sort than by talking of investigations and fixing maximum prices, and other impractical things.

TANLAC BESTS TROUBLES

"This Medicine's Work Will Save Me, at Least \$100", Mrs. Mace Asserts.

"I'm sure that Tanlac is going to save me a hospital bill of at least \$100 this spring", Mrs. Bertha J. Mace, wife of a well known Jacksonville cigar maker who lives at 408 South Main street, said on April 24. "Every spring and fall for the last three years," Mrs. Mace continued, "I have suffered from stomach and liver trouble. Each time I would have to go to the hospital. In the spring my liver would become very sluggish my kidneys also would become affected. Sharp, shooting pains came in my stomach, so severe that I thought I couldn't stand them. It was almost impossible for me to sleep at night and I was nervous and irritable all the time."

"I decided to try Tanlac after I had learned how many Jacksonville people had been aided by the new medicine. Well sir, I simply feel fine now. I'm able to work in the garden and can do all my housework now without the least trouble. My liver and kidney trouble has been greatly relieved. The pains in my stomach have ceased to bother me, too. I'm anxious to have all my friends know what a fine medicine Tanlac really is."

There is no time when Tanlac can be taken to better advantage than right now. In the spring all mankind after weathering the storms of winter is in need of an upbuilding tonic. Tanlac is designed to overcome this trouble and is doing so in hundreds of cases in this city and vicinity.

Tanlac is now being introduced in Jacksonville at the Coover-Shreve Drug Co., East Side store, where a special Tanlac representative is explaining the new medicine to the public daily. Tanlac also may be obtained in Jacksonville at the West side store of the Coover-Shreve Drug Co. It is sold in Waverly at the Wyle Drug Co., in New Berlin at the New Berlin Drug Co., in Ashland at H. O. Brownback's and in Versailles at A. G. Bates' Drug Store.

WILL MEET THIS AFTERNOON.

The Ladies' Aid society of Northminster church will meet at the church this afternoon at 2:30 o'clock.

Mrs. Ruth Smith has returned home from a visit with relatives in Beardstown.

AN INTERESTING DAIRY.

C. A. Osborne has loaned the Journal a diary kept by his uncle, D. Pat Headington in 1862 and in it are many interesting entries. At that time he was a schoolboy and Michael Sanderson was his teacher. He went to church in old Union hall located on the spot now occupied by the store of Johnson, Hacke & Gayther, and heard Mr. Cox preach. Jan. 23rd his mother was enjoying a visit from Sue Fry. Jan 29th, Mr. Gregory from White Hall and John Brown were guests at the family home. Feb. 5th the family entertained John Fry and Mattie Van Gyle.

Wednesday, Feb. 10th, there was a big fire near the northwest corner of the square consuming a blacksmith shop, a drinking saloon and two dwellings. Next day he had an altercation with Ben Cole at school. Feb. 24th, he tells of selling a crib of corn at seven cents a bushel. One

day some army wagons loaded with provisions and guarded by cavalry passed thru the place. Wednesday, Feb. 12th, the family entertained Miss Hunt, Miss Colby and Bailey Dawson. May 1st, Mrs. Dobyns and Mrs. Bulkley were guests at the family home.

Many familiar names are scattered thru the pages which were kept from Jan. to June 11th. The young man was active and energetic, tells of many incidents peculiar to the times and in an interesting manner.

Decrease in Number of Employees. London, May.—The number of employees in the building trades in Great Britain has decreased since the war from 850,000 to 450,000. This presumably indicates a contribution of 400,000 men to the army.

Mrs. Charles Boyer of Manchester was a shopper in the city Wednesday.

EVERY India SET

of the new

Encyclopaedia Britannica

in the entire world
that is still unsold

IS RIGHT HERE in America

This great work, written and edited by the scholars of the world, is the accepted international authority on all branches of knowledge. Consequently, it has a large sale in every civilized country.

But of all the sets printed on the famous India paper, the only ones in the world still available are the few thousand now being sold in this country. And these will soon be all gone—a few weeks at the outside will see the very last set sold.

Thousands of sets were sold in Great Britain. Today it is not possible to buy the Britannica in that country except at secondhand and at whatever premium is put upon it.

Every set offered in Australia is gone.

South Africa is "sold out."

India is "sold out."

Japan, where more sets of the Britannica were sold than of any reference work in any language, is "sold out."

Argentina, which led all Latin-America in sales of the Britannica, is "sold out."

In Canada, the only sets that can be purchased must be sent from the United States.

You have the opportunity NOW to acquire one of these last sets of the Britannica printed on genuine India paper. But only for a few weeks longer at most—because the remaining sets are selling fast. Orders are coming in from all parts of the United States and Canada at an increasing rate from day to day.

If you let this chance pass, you will never have another to buy this world-famous work printed on the beautiful India paper.

It is NOW or never if you want a set.

More than 175,000 sets have already been sold in America—only a small fraction of the entire stock remains. You cannot delay and expect to get a set. Therefore we urge you to act immediately.

No one should buy the Britannica unless he is convinced that it would be useful to him. And in your case YOU are the one to decide how much this Library of Knowledge would help you in your business or work,

You can see sets and leave orders at:

LANE'S BOOK STORE

West State Street

just as it is helping tens of thousands of others.

This great work leads to the highway of Success—it not only gives you practical information on any subject, but it increases your efficiency, broadens your point of view and employs the scope of your activities. It has a dollars-value because the knowledge it gives you increases your earning power.

You need the Britannica for a hundred and more reasons. You certainly owe it to yourself to find out all about it before you order it. And if you then decide that you want it printed on beautiful India paper, NOW is the time to buy it —at the specially attractive price at which these very last sets in the world printed on India paper are offered.

You are not asked to pay cash for it—only to get your order in at once with a first payment of one dollar. You can pay for it in a limited number of convenient monthly amounts of as low as \$3 for the cloth binding. And you have the use of the books (29 volumes) while paying for them—they will be shipped as soon as your order is received.

But you must act promptly. Every day's delay lessens your chance to own one of these very last sets of the Britannica printed on genuine India paper. You must buy it NOW —or Never!

Those who cannot go to the store may use this Reserve Order form, which will be legally binding upon us to reserve one set for you, just the same as if you ordered it in person.

SEARS, ROEBUCK AND CO., Chicago, Ill.

Please reserve me a set of the "Handy Volume" Encyclopaedia Britannica, printed on genuine India paper. I enclose \$1.00 as first payment. Send me an order form which I agree to sign and return immediately.
